Rosemary Chiavetta, Secretary
Pennsylvania Public Utility Commission
P.O. Box 3265
Harrisburg PA 17105-3265

Dear Secretary Chiavetta,

Attached are four copies of pages 4, 4.1, 4.2, 4.3, and 4.4 to the Company's filing for Supplement No. 6 to Tariff Wastewater-Pa P.U.C. No. 8 for Pennsylvania American Water, which bear the issue of February 7, 2011 to be effective with 60 days notice on April 8, 2011. These copies are to replace those that were originally filed. The revision is being filed per staff recommendation to change the tariff language for Section D of all pages. The Docket Number for this filing is R-2011-2224774. Also attached please find the Company's responses to §53.52 Filing Requirements. Please disregard the letter filed on March 9, 2011.

Sincerely,

Rod Nevirauskas
Director of Rates and Regulations

RESPONSES TO FILING REQUIREMENTS

§53.52. APPLICABILITY; PUBLIC UTILITIES OTHER THAN CANAL, TURNPIKE, TUNNEL, BRIDGE AND WHARF COMPANIES

(a) **Whenever a public utility, other than a canal, turnpike, tunnel, bridge or wharf company files a tariff, revision or supplement effecting changes in the terms and conditions of service rendered or to be rendered, it shall submit to the Commission, with the tariff, revision or supplement, statements showing all of the following:**

(1) *The specific reasons for each change.*

Please refer to *Supplement No. 6 to Tariff Wastewater-PA P.U.C. No. 8*. The Company is making this change to clarify the tariff language because not all customer usage is billed based on water usage with the measuring source of such usage coming from water meters. The Company has seven customers who are billed based on flows from meters that directly measure sewer flow. This tariff revision makes no change to the way current customers are being billed but rather acknowledges the fact that there are a limited number of sewer meters in the Coatesville area.

(2) *The total number of customers served by the utility.*

At February 28, 2011, the Company provided wastewater service in Coatesville to approximately 6,200 customers.

(3) *A calculation of the number of customers, by tariff subdivision, whose bills will be affected by the change.*

There will be no customers affected by this change.

(4) *The effect of the change on the utility's customers.*

None.

(5) *The direct or indirect effect of the proposed change on the utility's revenue and expenses.*

None.

(6) *The effect of the change on the service rendered by the utility.*

None.

(7) *A list of factors considered by the utility in its determination to make the change. The list shall include a comprehensive statement about why these factors were chosen and the relative importance of each. This subsection does not apply to a portion of a tariff change seeking a general rate increase as defined in 66 Pa.C.S. § 1308 (relating to voluntary changes in*

rates).

The change is being made to make clear the manner in which certain customers are currently billed. PAWC filed this revision to clarify an ambiguity in its billing process even though we are unaware of any customer concerns regarding this issue.

- (8) *Studies undertaken by the utility in order to draft its proposed change. This paragraph does not apply to a portion of a tariff change seeking a general rate increase as defined in 66 Pa.C.S. § 1308.*

None.

- (9) *Customer polls taken and other documents which indicate customer acceptance and desire for the proposed change. If the poll or other documents reveal discernible public opposition, an explanation of why the change is in the public interest shall be provided.*

No customer polls were conducted.

- (10) *Plans the utility has for introducing or implementing the changes with respect to its ratepayers.*

None. There is no affect to customers.

- (11) *FCC, FERC or Commission orders or rulings applicable to the filing.*

None.

- (b) Whenever a public utility other than a canal, turnpike, tunnel, bridge or wharf company files a tariff, revisions or supplement which will increase or decrease the bills to its customers, it shall submit in addition to the requirements of subsection (a), to the Commission, with the tariff, revision or supplement, statements showing all of the following:

This change does not make any increases or decrease to customer's bills. The following do not apply.

- (1) *The specific reasons for each increase or decrease.*

- (2) *The operating income statement of the utility for a 12-month period, the end of which may not be more than 120 days prior to the filing. Water and sewer utilities with annual revenues under \$100,000 and municipal corporations subject to Commission jurisdiction may provide operating income statements for a 12-month period, the end of which may not be more than 180 days prior to the filing.*

- (3) *A calculation of the number of customers, by tariff subdivision, whose bills*

will be increased.

- (4) *A calculation of the total increases, in dollars, by tariff subdivision, projected to an annual basis.*
 - (5) *A calculation of the number of customers, by tariff subdivision, whose bills will be decreased.*
 - (6) *A calculation of the total decreases, in dollars, by tariff subdivision, projected to an annual basis.*
- (c) If a public utility files a tariff, revision or supplement which it is calculated will increase the bills of a customer or a group of customers by an amount, when projected to an annual basis, exceeding 3.0% of the operating revenues of the utility – subsection (b)(4) divided by the operating revenues of the utility for a 12-month period as defined in subsection (b)(2) – or which it is calculated will increase the bills of 5.0% or more of the number of customers served by the utility – subsection (b)(3) divided by subsection (a)(2) – it shall submit to the Commission with the tariff, revision or supplement, in addition to the statements required by subsections (a) and (b), all of the following information:

This change does not make any increases or decrease to customer's bills. The following do not apply.

- (1) *A statement showing the utility's calculation of the rate of return earned in the 12-month period referred to in subsection (b)(2), and the anticipated rate of return to be earned when the tariff, revision or supplement becomes effective. The rate base used in this calculation shall be supported by summaries of original cost.*
- (2) *A detailed balance sheet of the utility as of the close of the period referred to in subsection (b)(2).*
- (3) *A summary, by detailed plan accounts, of the book value of the property of the utility at the date of the balance sheet required by paragraph (2).*

- (4) *A statement showing the amount of the depreciation reserve, at the date of the balance sheet required by paragraph (2), applicable to the property, summarized as required by paragraph (3).*

- (5) *A statement of operating income, setting forth the operating revenues and expenses by detailed accounts for the 12-month period ending on the date of the balance sheet required by paragraph (2).*

- (6) *A brief description of a major change in the operating or financial condition of the utility occurring between the date of the balance sheet required by paragraph (2) and the date of transmittal of the tariff, revision or supplement. As used in this paragraph, a major change is one which materially alters the operating or financial condition of the utility from that reflected in paragraphs (1) – (5).*
