Terry McDanel v. Penn. Power Co.

Docket # C-2011-2224783

My written response to new matter from Penn Power Co. Counsel

Paragraphs 1-10 4(A) Don't agree the word "other" was never used, read complaint.  
4(B) 2) don't agree I have receipt purchased Heat Pump 1992  
4(B) 3) don't agree you admit in paragraph 19 of New Matter, to be filed to eliminate  
discount May 2011 to become effective June 1.2011.  
4(B) 7) don't agree You admit in you answer in 1) May 4, 1989 Rate schedule RH  
effective

Paragraph 13. Don't agree, I have not been on rate schedule RH since March,31,1971,that's when I  
moved into my current house, My RH rate schedule started in May of 1992, When i install the whole  
house heat pump.

Paragraph 14. I agree, this is my complaint, to keep "declining block rates" for whole house electric  
users.

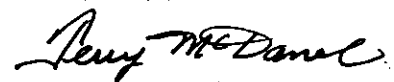

Paragraph 15 – 24 I don't agree you keep referring to energy conservation thru elimination of declining  
block rates. I can conserve electric many ways, thru added insulation, newer windows & doors, using  
energy star rated appliances, new type light bulbs. Trying to cut electric usage by raising the rates of  
home owners who have all electric is not the answer.

#### THE COMPLAINT IS SUFFICIENT

I am not claiming Penn Power violated any law. The Penn Power Tariff Rate schedule RH Supplement #  
80 to Electric Pa P.U.C. #30 Original sheet # 16.1 effective May 4, 1989 should be honored. The rate was  
set to cut back usage of oil and gas, and start the process of "GOING GREEN" it was also based upon  
consumption; I feel the P.U.C. is used for an excuse to remove the RH rate.

I am requesting the hearing be held by telephone at 724-846-8213 with notice.

Very truly yours,

  
Terry McDanel
