**RE: Letter of Notification of PPL Electric Utilities Corporation, Filed Pursuant to 52 PA Code, Chapter 57, Subchapter G, For Approval of the Reconstruction of the Pennsylvania Portion of the Manor-Graceton 230 KV Transmission Line in Manor Township, Lancaster County and in Chanceford, Lower Chanceford and Peach Bottom Townships in York County, Pennsylvania - Docket No. A-2011-2219913: Correction to Letter of Notification**

Dear Secretary Chiavetta:

On January 6, 2011, PPL Electric Utilities Corporation ("PPL Electric") filed with the Pennsylvania Public Utility Commission ("Commission") the above-referenced Letter of Notification, together with the accompanying exhibits and appendices. Upon further review of the Letter of Notification filed with the Commission, PPL Electric identified the need to make a minor correction to the Letter of Notification.

In Paragraph 60, the Letter of Notification incorrectly states as follows:

In order to avoid potential disturbance of great blue heron nesting areas, PPL Electric will not engage in construction activities for the Line in Lancaster County or along the Susquehanna River from August 16 through February 14.

However, as correctly indicated in Attachment 3 to the Letter of Notification, the actual requirement is that all construction activities shall be conducted between August 16 and February 14. Attached is a black-line and clean version of the applicable page from the Letter of Notification, reflecting the necessary correction.

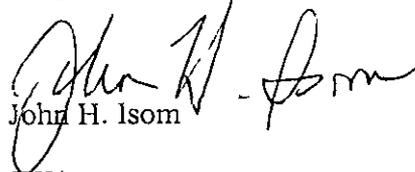

March 25, 2011

Page 2

PPL Electric respectfully requests that the attached corrected page be incorporated into and made a part of the Letter of Notification originally filed on January 6, 2011. Said correction will have no material affect on any other portion of the originally filed Letter of Notification or the accompanying exhibits and appendices.

As indicated on the certificate of service, copies of this letter and the attached corrected page are being provided to the parties in the manner indicated. If you have any questions concerning this matter, please contact me at the address or telephone numbers provided above.

Respectfully Submitted,

A handwritten signature in black ink, appearing to read "John H. Isom". The signature is written in a cursive style with a large initial "J".

John H. Isom

Enclosures

cc: Certificate of Service

58. Pennsylvania provides habitat for numerous species of wildlife, including certain rare, threatened or endangered species. Rebuilding the Line within the existing right-of-way will reduce, and perhaps eliminate, adverse impacts on wildlife habitat.

59. Areas near the right-of-way include potential habitat for several species of special concern, including the bald eagle, ospreys, prothonotary warblers, Indiana bats, bog turtles and red-bellied turtles.

60. In addition, the Pennsylvania Game Commission indicated that the great blue heron, a state species of special concern, might be present. In order to avoid potential disturbance of great blue heron nesting areas, PPL Electric will engage in construction activities for the Line in Lancaster County or along the Susquehanna River from August 16 through February 14. The PFBC also indicated that the state threatened red-bellied turtle (*Pseudemys rubriventris*) is known to exist in the vicinity of the project. Since no work is planned within the Susquehanna River, and because PPL Electric anticipates being able to span any potential red-bellied turtle habitat, the project is unlikely to adversely impact the red-bellied turtle.

61. PPL Electric will conduct all required surveys and resolve all potential conflicts with rare, endangered and threatened species prior to starting construction.

#### **VIII. HEALTH AND SAFETY**

62. The rebuild of the Manor-Graceton Line will not cause any unreasonable risk to the health and safety of persons in its vicinity.

63. The Engineering Description of the proposed Manor-Graceton Line is provided in Attachment 2 accompanying this Letter of Notification.

64. The proposed Manor-Graceton Line will not create any unreasonable risk of danger to the public health or safety. The Manor-Graceton Line will be designed, constructed, operated, and maintained in a manner that meets or surpasses all applicable NESC minimum

## CERTIFICATE OF SERVICE

I hereby certify that a true and correct copy of the foregoing has been served upon the following persons, in the manner indicated, in accordance with the requirements of 52 Pa. Code § 1.54 (relating to service by a participant).
