MOTION : IN TWO PARTS : ACTIONABLE / TIME

PART 1. CONTINUE ACTION.

To the Administrative Law Judge Salapa and Metropolitan Edison : Here comes the Complainant: The complainant sees no where , in it's brief , where Met - Ed's rights are violated and prejudiced or has been prevented either inhibited fairness to be afforded to Met - Ed .(see pa. civ proc. rule 109) .

Even more so , thus Met - Ed has alleged and announced that the complaint is badly written , and of questionable truth veracity , and the complaintant to be represented as of prolepsis as already dead in the water . And thus, that the complaintant's observations and experiences of the misuse of appliances , wirings , and other observed abnormalities of the Met - Ed service is in error , and of faulty perception .

Objection :

The objection is that Met - Ed is making a judgmental assertion about cognitive on goings within Thomas which certainly prejudices Thomas' rights and as well Met - Ed has not produced any documentation in cognitive , parietal nor other brain functions to base this bent of mind ' offering no proof . In other words Met - Ed has pronounced an obvious character assassination - vilification an effect which attempts to prejudice the rights of Thomas " , taint the character " , destroy the right -- play the elevated prevarication ?

Indeed says Met -Ed thusly send to me all information you have on my equivication so as Met - Ed et al can concoct a tale to confound and round about Rule 803 . Rule 613 . Rule 103 . Rule 405 . (See 66 pa.CSA section 308 (d) .

PART II. TIME ENLARGEMENT .

Because of the receipt of recent information to the complaintant from his doctor concerning worsening " degenerative spinal disc disease " the Commission as well as Met - Ed is asked to consider time enlargement :

Time out of the horrid morning rush race race as well as the evening rush hour savagery .

Due to the non public , and private , and personal nature of medical states and the
