**Re: PECO Letter of Notification With Respect to the Reconductoring and
Reconfiguration of the Master-North Philadelphia 230 kV Line
Docket No. A-2010-2205691**

Dear Secretary Chiavetta:

On October 20, 2010, PECO filed a Letter of Notification in the above-referenced docket, in which it requested Commission approval to proceed with certain specified changes to its Master-North Philadelphia 230 kV Line. In its Letter of Notification, PECO stated that the reconductoring work on this line is required per PJM's 2006 Baseline Report, with a needed in-service date of June 1, 2011.

After PECO filed its Letter of Notification, it was informed by PJM that, due to network changes elsewhere on the PJM system, PJM now does not anticipate that the Master – North Philadelphia reconfiguration work will need to be done until at least 2015, and that PJM needs to do additional analytic work to determine the new in-service date and technical requirements. PECO therefore withdraws its Letter of Notification in this non-contested docket. If and when PJM later determines that these or related changes are required, PECO will submit a new Letter of Notification for the Master – North Philadelphia work at that time.

If you have any questions, please contact me at 215-841-6863.

Sincerely,

Ward Smith
