Re: William Morgan v Peco Energy
Docket Number C-2010-2215679

Dear Secretary^{tary} Chiavetta

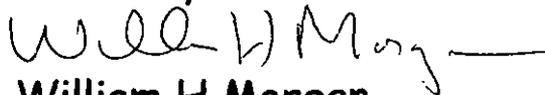

Tishikia Williams, Counsel for PECO Energy Company is under the misunderstanding that there is a settlement of the above referenced complaint. There isn't.

PECO has failed to explain where the money went that we, their customers, paid for their "stranded assets" \$5,2 Billion dollars that was apparently transferred to their parent Exelon Energy in Chicago as well as the assets including the Limerick Nuclear Power Plants, and why we don't get some sort of credit for these funds in upcoming bills. They have also failed to explain why they STILL haven't advised 165,000 of their customers that they are eliminating their RH discounts, even as they

continued to sell Heat Pumps and Central air conditioning in the circulars included in their bills through April 2010 knowing full well that these discounts were being eliminated as agreed with the PUC, and the PUC has failed to advise their customers that these rates are being discontinued.

So we're not done yet

Sincerely

A handwritten signature in black ink that reads "William H Morgan" followed by a horizontal line.
