**Re: Duquesne Light Company  
General Base Rate Increase  
Docket No. R-2010- 2179522**

**PA PUBLIC UTILITY COMMISSION  
SECRETARY'S BUREAU**

Dear Secretary Chiavetta:

Enclosed for filing please find an original and eight (8) copies of a corrective page to Page No. 22 to Duquesne Light Company's Tariff Electric, PA. P.U.C. No. 24. We inadvertently omitted previously-approved language from a prior proceeding. Specifically, in compliance with the Commission's Order issued on May 11, 2010, at Docket No. M-2009-2123948, Supplement No. 36 to Duquesne Light Company's Tariff Electric, PA. P.U.C. No. 24 was issued on July 22, 2010, to become effective on August 1, 2010. One element of Supplement No. 36 added wording to Page No. 22, Rule No. 14.2 – Customer Request for Special Metering to reflect the Company's current procedure as well as to address customer requests for smart meter installation prior to October 2012. Supplement No. 36 was permitted to become effective on August 1, 2010, by Secretarial Letter dated August 30, 2010.

This corrective filing inserts the tariff language previously approved by the Commission in Supplement No. 36, but inadvertently omitted during the preparation and submission of the compliance tariff filing at the conclusion of Duquesne's general base rate proceeding at R-2010-2179522. This corrective filing is administrative in nature and presents no new information to be reviewed or considered by the Commission.

If you have any questions, please do not hesitate to contact me.

Very truly yours,

Gary A. Jack  
Assistant General Counsel

Enclosure  
c: Certificate of Service

---

**RULES AND REGULATIONS - (Continued)****MEASUREMENT AND USE OF SERVICE - (Continued)****14.2 CUSTOMER REQUEST FOR SPECIAL METERING – (Continued)**

The Company has adopted a program that provides all customers with meters to provide data for normal monthly billing services. In the event that a residential or small commercial customer, or an EGS on behalf of a residential or small commercial customer, requests an upgrade to an Alpha Powerplus meter, which the Company provides for large commercial and industrial customers, installation of that meter will be provided at a cost of \$586.00, plus additional costs for the appropriate communication/system infrastructure. These net incremental charges, as set forth in the Company's Advance Meter Catalog, may be paid to the Company by either the customer or the EGS, or jointly by the customer and the EGS pursuant to a mutual agreement.

Act 129 of 2008 ("Act") required electric distribution companies ("EDCs") with at least 100,000 customers to file a Smart Meter Procurement and Installation Plan ("Plan") for Commission approval. The Commission's Smart Meter Procurement and Installation Implementation Order entered June 24, 2009, at Docket No. M-2009-2092655 set forth additional details for EDCs and rules for customers who request a smart meter prior to the EDC installing a smart meter on their premise. For customers who request a smart meter installed at their premise prior to October 2012, the Company will install an interval meter in lieu of a smart meter. The meter will be provided at a cost of \$586.00, as specified above, plus \$719.00 for the appropriate communication/system infrastructure. For a customer requesting pulse data from the interval meter, an additional charge of \$197.00 will apply. The requesting customer's account must be current and all payments must be made up-front prior to installation.

**14.3 SUB-METERING** If a customer wishes to have metering installed in addition to the Company installed meter, the meter must be installed on the customers electrical system and at the expense of the customer.

**15. INABILITY TO READ RESIDENTIAL METERS** When scheduled readings of kilowatt-hour meters are not obtained because of inability to gain access to the meter location, the customer may read his meter and furnish the Company the reading on cards supplied by the Company, or by telephone to the Company, in which case the bill will be rendered on the basis of such reading; otherwise, the Company will estimate the bill. No more than five (5) successive bills will be rendered on readings made by the customer.

**15.1 INABILITY TO READ COMMERCIAL OR INDUSTRIAL METERS** When scheduled readings of kilowatt-hour and demand meters are not obtained, the Company may render an interim statement for each month until the meters are read.

**16. USE OF SERVICE BY CUSTOMER** The customer shall use the electric service only at the premise where service is established; and after electric service has been established, shall notify the Company of any change in connected load, demand, or other conditions of use. The customer shall notify the Company of other on site sources of electric generation or electricity concurrently produced as a by-product of another process or electricity produced utilizing renewable resources. Customers who own and operate electric generation equipment shall conform with the Company's "Electric Service Installation Rules," copies of which may be obtained by calling, e-mailing or writing the Company's business office or at [www.duquesnelight.com](http://www.duquesnelight.com). For customers who own and operate electric generation, the provisions of Rider No. 16 - Service to Non-Utility Generating Facilities and Rider No. 21 - Net Metering Service may also apply. (C)
