**RE: Core Communications, Inc. v. XO Communications Services, Inc.;**  
**Docket No. C-2009-2133609**

Dear Secretary Chiavetta:

Enclosed for filing with the Pennsylvania Public Utility Commission ("PUC" or "Commission") are the original and three (3) copies of the Response and Objection of XO Communications Services, Inc. ("XO") to the Motion of Core Communications, Inc. ("Core") on behalf of XO.

As indicated on the attached Certificate of Service, all parties to this proceeding are being duly served. Please date stamp the extra copy of this transmittal letter and Response and Objection, and kindly return them for our filing purposes.

Very truly yours,

McNEES WALLACE & NURICK LLC

By   
Pamela C. Polacek

Counsel to XO Communications Services, Inc.

PCP/km  
Enclosure

c: Administrative Law Judge Kandace F. Melillo (via E-mail and Hand Delivery)  
Certificate of Service

RECEIVED

PA PUC  
SECRETARY'S BUREAU

**BEFORE THE  
PENNSYLVANIA PUBLIC UTILITY COMMISSION**

Core Communications, Inc. :  
 :  
v. : Docket No. C-2009-2133609  
 :  
XO Communications Services, Inc. :

---

**RESPONSE AND OBJECTION OF XO COMMUNICATIONS SERVICES, INC. TO  
MOTION FOR ADMISSION OF EXHIBITS**

---

Pursuant to 52 Pa. Code § 5.103(c), XO Communications Services, Inc. ("XO") responds and objects to the Motion of Core Communications, Inc. ("Core") for Admission of Exhibits ("Motion"). In its Motion, Core requests that the Administrative Law Judge ("ALJ") admit the following exhibits:

- Core Cross Examination Exhibit No. 5;
- BLM-23, which was marked for identification on May 3, 2011, but admission of the exhibit was taken under advisement by ALJ Melillo; and
- BLM-24 and BLM-25, which were prepared in response to ALJ Melillo's inquiries and requests for updated factual information during the May 3, 2011, hearing.

XO does not object to the admission of Core Cross Examination Exhibit No. 5 and Exhibits BLM-23 and BLM-24. However, XO objects to the admission of Exhibit BLM-25 on the grounds that it does not accurately reflect the minutes of use ("MOUs") or indicate whether the traffic was locally dialed or not. Moreover, Exhibit BLM-25 is not consistent with the invoices that Core has rendered to XO. Thus, Exhibit BLM-25 lacks veracity and is not competent

**RECEIVED**  
**2011 MAY 31 PM 4:30**  
PA PUC  
SECRETARY'S BUREAU

evidence. Moreover, it comprises, by Core's own admission, an alternate claim for relief that should be rejected.<sup>1</sup>

The evidentiary hearing on Core's Complaint was held on May 3, 2011. In response to questioning from ALJ Melillo, Core agreed to provide two additional exhibits, which are pre-marked as Exhibits BLM-24 and BLM-25. The purpose of Exhibit BLM-25 was "to supply information regarding a breakout between local and nonlocal minutes and associated charges"<sup>2</sup> owed by XO to Core. Accordingly, Core filed the Motion which, among other things, attached a pre-marked copy of Core proposed Exhibit BLM-25, seven pages which purport to list the number of MOUs sent by XO to Core from June 2004 through April 30, 2011, categorized into non-locally dialed MOUs (or "Intra-Toll MOUs") and locally dialed MOUs (or "Local MOUs"). In addition, Exhibit BLM-25 claims to show "updated" amounts due on the invoices that have been submitted to XO for this time period, including a claim for late payment charges that Core has *never* billed.

Core alleges that Exhibit BLM-25 is "competent and material" evidence,<sup>3</sup> but in fact there are a number of indications that it is not. To begin with, BLM-25 is not even consistent in its presentation and does not do what was requested. Core was supposed to provide a "breakout between local and nonlocal minutes and associated charges." Yet, the first three pages of BLM-25 do not have any MOUs, and further claims that all of the traffic is "PA Intrastate." These pages are merely a vehicle for admitting Core's supplemental claim for late charges, and should be ignored to that extent.

---

<sup>1</sup> Motion at 7-8. Core cites to Core St. No. 1 in an attempt to transform its Direct Testimony into an alternate statement of the case.

<sup>2</sup> Tr. 117:12-14. XO wishes to note that it has not agreed that the jurisdiction of the traffic is a relevant consideration, and reserves all rights to argue this point, since it has been established that all of the traffic prior to September 2009 is ISP-bound traffic, and Core by its own admission is unable to establish that any traffic after that date is not ISP-bound traffic.

<sup>3</sup> Motion at 9.

Moving on, a sampling of invoices that XO received for CIC 5119 shows that the actual invoiced number of MOUs and Exhibit BLM-25 are not consistent. XO selected three invoiced usage months for CIC 5119 that had a large number of MOUs and compared the data incorporated in Exhibit BLM-25 to the actual paper invoices that Core has rendered to XO.<sup>4</sup> In each case, Exhibit BLM-25 has substantially more MOUs than the actual invoices Core rendered:

<b>CIC 5119</b>	<b>JAN 2005</b>	<b>NOV 2006</b>	<b>JAN 2008</b>
Original Invoiced MOUs	16,766	38,210	97,423
Exhibit BLM-25 MOUs	67,606	50,118	139,320
Exhibit BLM-25 <i>Increase</i>	<b>50,840</b>	<b>11,908</b>	<b>41,897</b>

XO has not had time to perform this analysis on all invoices, but the analysis it has done shows that Exhibit BLM-25 is flawed and cannot be relied on and, therefore, should not be admitted in to evidence.<sup>5</sup>

Secondly, the rate per MOU on the invoices is inconsistent with Core's claims in Exhibit BLM-25 (regardless of whether they are for access rates, TELRIC, or the ISP-Bound rate). As indicated in Exhibit 1, the rate for the January 2005 and November 2006 invoices is 2.9 cents per MOU, whereas the rate for January 2008, and presumably later months, is 1.4 cents per MOU. In addition, the rates for Intra-Toll MOUs, as shown on pages four through five, are inconsistent.<sup>6</sup> For the period January 2004 – July 2009, dividing the Intra-Toll Amt. Due by the Intra-Toll MOUs results in an average of 1.4 cents per MOU, which then steadily increases from

<sup>4</sup> Copies of these invoices are attached as Exhibit 1. Please note that XO has not had sufficient time to compare invoice usage amounts for all months to the MOUs in BLM-25; however, it appears for the most recent months in 2011, the MOUs on the spreadsheet appear to match to the invoices. Nevertheless, given the discrepancies in the other months BLM-25 should not be admitted.

<sup>5</sup> Further analysis would certainly concentrate on the unusual variability of the numbers, an observation that XO did not have time to pursue. For example, the absolute number of CIC 5119 MOUs vary greatly from month to month, and the relative proportion of Local MOUs vs. Intra-Toll MOUs vary from month to month as well, sometimes reversing. For CIC 5607, there are also outliers that suggest faulty data, *e.g.* February 2009, which shows over three times the MOUs of the previous month, and five times more than the next month.

<sup>6</sup> Note that XO does not concede that these are Intra-Toll MOUs, or that any rate arrangement other than bill and keep is applicable to this traffic. These observations are offered only to question the overall integrity of the data.

that time to a present rate that is now over 9 cents per MOU. A similar effect is noticed for CIC 5607. On pages six through seven, the Intra-Toll rate is 1.4 cents per MOU through July 2009, but it also increases to a present rate that is just over 2.5 cents per MOU. Finally, the invoiced dollar amounts for CIC 5119 on pages one through three do not match the invoiced dollar amounts on page four and five, ostensibly because pages four and five are based on, and essentially comprise, Core's "alternate" theory of relief. Core's claim is based on its original invoices,<sup>7</sup> but XO's preliminary review of Exhibit BLM-25 indicates that this Exhibit suffers a tenuous connection to those invoices. For this reason alone, both the competency and materiality of the exhibit are suspect, and it should not be accepted into the record.

Third, while the amounts listed for CIC 5119 at least purport to bear a relationship to Core's invoices, the amounts listed on pages six and seven for CIC 5607 are completely divorced from such a justification. In that portion of Exhibit BLM-25, Core is claiming that 100 percent of the traffic is Intra-Toll. While remarkable on its face, this assertion is even more so considering that, based on quick sampling of recent invoices for CIC 5607, Core has billed *none* of this traffic as intrastate, *but instead has billed it all as interstate*.<sup>8</sup> Core's CIC 5607 does differ from the CIC 5119 analysis in that the CIC 5607 minutes invoiced actually do match those on pages six through seven of Exhibit BLM-25 (if one ignores the fact that they are in two different jurisdictions). However, a deeper analysis still reveals inconsistencies. XO performed a quick analysis of its switch records for Core-bound traffic in those months which revealed serious discrepancies, all in Core's favor:

---

<sup>7</sup> "Respondent has refused to pay Core's lawfully invoiced terminating switched access charges, in violation of Core's Switched Access Tariff." Core Complaint at 11.

<sup>8</sup> See attached Exhibit 2, containing CIC 5607 invoices for October, November and December 2009.

<b>CIC 5607</b>	<b>NOV 2009</b>	<b>DEC 2009</b>	<b>JAN 2010</b>
Exhibit BLM-25 MOUs	41,972	47,207	48,973
XO Switch Records MOUs	17,109	13,739	14,819
<b>Variance</b>	<b>24,863</b>	<b>33,468</b>	<b>34,154</b>

As with CIC 5119, XO has not had time to perform this analysis on all invoices, but the analysis it has done continues to demonstrate that Exhibit BLM-25 is flawed and cannot be relied on and, therefore, should not be admitted in to evidence.

Moreover, Core has presented nothing to validate its claim that all of the CIC 5607 traffic should be rated as intrastate toll traffic and has presented no plausible explanation of why it should. Its original presumption that any traffic accompanied by a CIC is non-local has been well rebutted,<sup>9</sup> and it has not referenced any contract or tariff provision, or any Commission order or guideline that supports this practice. Instead, in the face of its testimony that "Core has traditionally focused on the provision of telecommunications and related services to dial-up Internet service providers,"<sup>10</sup> that it did so exclusively until August 2009,<sup>11</sup> and that "calls to dial-up ISPs are almost always locally-dialed calls,"<sup>12</sup> Core has merely declared this traffic to be Intra-Toll, rather than conduct an investigation into its records. XO has provided testimony that it provides industry standard call information in Category 11 records that would enable Core to determine the jurisdiction of this traffic, and that such information will establish that calls from CIC 5607 are local. As such, there is no plausible basis on which to claim that this it is all intrastate toll traffic or, in fact, that any of it is. (As a corollary to this, it is implausible that Core, a carrier in the business of providing local access to ISPs, would have any significant proportion of Intra-Toll traffic for CIC 5119, either.) Pages six and seven of Exhibit BLM-25

---

<sup>9</sup> Tr. 86:15-87:3; SR-1 9:10-10:4.

<sup>10</sup> Core St. No. 1 at 2.

<sup>11</sup> Tr. at 34:23-35:7.

<sup>12</sup> Core St. No. 1 at 9.

are not evidence, but merely an unsupported claim that do not rise to the level of evidence. This is another reason why the exhibit should not be accepted into the record.

Finally, Exhibit BLM-25, by increasing the number of MOUs, varying the billing rates, and adding a new demand for late charges, comprises a supplemental claim for relief that should be stricken at this late stage of the proceeding.

As a further note, XO takes exception to Core's use of the Motion to persist in its attempts to shift the burden of production and persuasion in this proceeding. In defense of its late-filed information, Core laments that *XO* has "the ability to audit these MOUs on a monthly basis;" that "Core's breakdown of intrastate MOUs between locally-dialed and non-locally traffic has also been provided *informally* to *XO*" and that "*XO* . . . could have audited the MOUs at any time during this period and broken out the local MOUs using the same methodology Core has employed for purposes of this exhibit."<sup>13</sup> This is completely backward. As the complainant, it is Core's obligation to present evidence that validates its claim, not *XO*'s. *XO* had no reasonable obligation to audit small invoices that appeared erroneous (if not unlawful) on their face, nor to substantiate the validity of "informal" breakdowns. Furthermore, any audit of call records for the length of time that Core is claiming would be prohibitively expensive for *XO*. In short, *XO* is under no obligation to make Core's case for them.

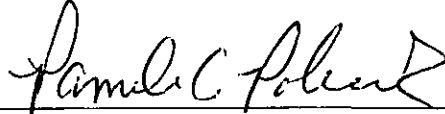

With just a preliminary analysis of a few invoices, *XO* has determined that proposed Exhibit BLM-25 is so full of inaccuracies, inconsistencies and contradictions that it is essentially useless. In fact, *XO* submits that it may be grounds for dismissal of this proceeding, given that it demonstrates that Core has not met its burden of proof.

---

<sup>13</sup> Motion at 8-9.

**WHEREFORE**, for all the foregoing reasons, XO respectfully requests that Your Honor issue an Order denying the Motion or, in the alternative, providing for a period of 30 days for additional discovery on the information provided in Exhibit BLM-25, to address the concerns discussed herein, and to provide an opportunity for XO to respond.

Respectfully submitted,

---
