Docket No. C 2011-22 38 136

New matter concerning my spouse  
Louis Bradley. He is now home from  
the hospital. Louis Bradley had a  
stroke which has severely impaired  
his ability to swallow. He still  
needs the feeding tube which requires  
a pump and electricity. He also has  
to stand glide to take him up and down  
the stairs which is run by electricity.  
I need a payment agreement within  
my budget. So I can pay my  
electricity Bill.
