Dear Judge,

Re: S.116 decision:

Also you need to be educated
on Termites + control thereof.
I've had ORK in here +
Engineer here.

(1) Termites need water
to make mud tunnels up to
wood in a home.

(2) They do not like sunlight.
They hide in DARK places.

(3) They are Blind white
worms that eat wood +
feed it to the Queen +
(over)

(2)

One colony (or colonies) of
millions. I had 2 colonies
here,

(4) ~~They~~ They go house to house
to eat + eat!

(5) They have swarms - look
like Black Ants w/ wings,

They eat wood + furniture +
clothing if necessary!

The swarms mate + go
in ground + white workers
appear + eat wood,

The alley behind my home
belongs to the Borough here +
They neglected to keep a
storm water pipe open +
it flooded my home.

(3)

Created by water, I am press to
help Termites go to Texas

★ 430 E. Central Ave. next
Door is painted w/ Termites.
They were @ 418 E. Central Ave.
They are across street from me.
They are on Sylva Drive above
me + E. Southern Ave. below
me.

★ Go Get your own info
on Termites

When your house is Swarming
w/ swarms - You'll know
it! Ants all over walls
etc. They don't go
away easily!

(4)

So - y'all see - I've
had my share of troubles
here w/ water, Termites,
PPL setting me on fire in
1990 + Asthma,
Eye troubles +
No job - I don't
need anymore nonsense.

That included Baranigh's
Resistance to doing their job
+ their secrets that they
were sued for by DEP +
EPA + such as a mess
as is here in S. Wampscott

I had no money, no job,
can't see + a \$11,000 Bill
for sewer lateral
replacement.

Then PPL on top

No way!

(5)

Enough is quite enough!

I do not want any
more of their letters
here & that is final!

Respectfully,

Stephen's
Crayton
