TARIFF FORMAT

- A. **Sheet Numbering** - Sheet numbers appear in the upper-right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the Tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between Sheets 14 and 15 would be 14.1.

- B. **Sheet Revision Numbers** - Revision numbers also appear in the upper-right corner of the page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their Tariff approval process, the most current sheet number on file with the Commission is not always the Tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

- C. **Check Sheets** - When a Tariff filing is made with the Commission, an updated check sheet accompanies the Tariff filing. The check sheet lists the sheets contained in the Tariff, with a cross reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some sheets). The Tariff user should refer to the latest check sheet to find out if a particular sheet is the most current sheet on file with the Commission.

 - B. When placing an order for service, Customer must provide:

 - 2. the name(s), telephone number(s), and address(es) of Customer-contact person(s).

2.6 **RESPONSIBILITY OF CUSTOMER (Continued)**

2.6.3 Credit Allowances

When the use of service or facilities furnished by Carrier is interrupted due to any cause other than the negligence or willful act of Customer, or the operation or failure of the facilities or equipment provided by Customer, a pro rata adjustment of the monthly Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by Carrier, except as otherwise specified in Carrier's tariff.

It shall be the obligation of Customer to notify Carrier immediately of any interruption in service for which a credit allowance is desired by Customer. Before giving such notice, Customer shall ascertain that the trouble is not being caused by any action or omission of Customer within his or her control, or is not in wiring or equipment, if any, furnished by Customer and connected to Carrier's terminal. If Customer reports a service, facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

A. Computation of Credit Allowances

1. Credit for failure of service or equipment will be allowed only when failure is caused by or occurs in facilities or equipment owned, provided and billed for, by Carrier.
2. Credit allowances for failure of service or equipment starts when Customer notifies Carrier of the failure or when Carrier becomes aware of the failure and ceases when the operation has been restored and an attempt has been made to notify Customer.
3. For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the monthly charges specified hereunder and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours.

3. for unlawful or improper use of facilities or service.

2.6.4 Cancellation by Customer

If Customer orders service requiring special facilities dedicated to Customer's use and then cancels the order before the service begins, before completion of the minimum service period, or before completion of some other period mutually agreed upon by Customer and Carrier, a charge will be made to Customer for the nonrecoverable portions of expenditures or liabilities incurred expressly on behalf of Customer by Carrier and not fully reimbursed by installation and monthly charges. COMPETITIVE LOCAL EXCHANGE TELECOMMUNICATIONS SERVICES

SECTION 4 - DESCRIPTION OF SERVICES**4.1 SERVICES**

The Carrier's Local Telephone Service enables the Customer to:

- Place or receive calls to any calling Station in the local calling area, as defined herein;
- Access basic 911 Emergency Service if available in the Customer's area;
- Where available, place or receive calls to 800 telephone numbers.

The Carrier's service can not be used to originate calls to other telephone companies' caller-paid information services (e.g., 900, 976).

4.1.1 Local Exchange Service

Local Exchange Service is a switched, intrastate, telecommunications service which permits customers to establish communications between two locations within the Customers' local calling area. Local Exchange Service allows customers to place calls within the local calling area, to access "911" and/or "E 911" service, if available, in the Customer's local calling area and to place calls to toll-free "800" or "888" numbers. Service will be charged on a monthly basis and a Customer will have unlimited use of the aforementioned service for that month. For an additional charge, Customers may also purchase custom services such as call waiting, call forwarding, three-way calling, speed dial caller ID, and non-published number service.

Local Exchange Service does not include any long distance service or other toll services. The following types of calls and services will be blocked by the Carrier: long distance (e.g. "1+#" or "0+#" calls); collect calls; operator-assisted calls; third number billed calls; directory assistance; or any service that may be billed to Customer's telephone number (e.g. "900" and "976" calls).

4.1.2 Toll Service

The Company's Basic Local Service *neither* includes direct-dialing distance calling *nor* any other toll services. Customer who desire intraLATA and interLATA toll service have the following options:

- A. Purchase Services from the Company's Interexchange Tariff
- B. Contracting directly with a long distance service provider;
- C. Using prepaid calling cards; or
- D. Using post-paid calling cards.

The Company will provide, at no additional charge, via Customer Service, information and counseling to its customers on how to obtain long distance service.

4.1 **SERVICES (Continued)**

4.1.3 Optional Services

A. Call Forwarding

Allows calls to automatically ring to another phone number.

B. Call Waiting

Allows the Customer to be notified of an incoming call while the Customer is having a conversation with another party.

C. Caller ID

Caller ID is an optional feature which allows the subscriber to see the telephone number of an incoming call displayed on the customer provided display unit. The telephone number of an incoming call will display between the first and second rings. Caller ID service works only on calls which originate and terminate in central offices which are equipped and have SS7 connectivity. Caller ID is available to customers by monthly subscription only, which provides unlimited use of this service. The Caller ID box is not included in the rate for the monthly service fee.

The telephone numbers that will be displayed on a Caller ID subscriber's display unit include listed, non-listed and non-published telephone numbers.

Telephone number that will not be displayed to the Caller ID subscriber are: (1) calls from customers who use Per-Call Blocking or Per-Line Blocking; (2) calls from customers located in central offices not a part of the SS7 Signaling System; and (3) calls placed through an operator. When these types of calls are received by a Caller ID subscriber, their display unit will notify them that the calling telephone number is unavailable.

D. Non-Published Number

E. Speed Dial

4.2 **DIRECTORY LISTINGS**

Carrier shall provide for a single directory listing, termed the primary listing, in the telephone directory published by the dominant exchange service provider in Customer’s exchange area of the Station number which is designated as Customer’s main billing number.

- 4.2.1 Carrier reserves the right to limit the length of any listing in the directory by the use of abbreviations when, in its judgment, the clearness of the listing or the identification of Customer is not impaired thereby. Where more than one line is required to properly list Customer, no additional charge is made.
- 4.2.2 Carrier may refuse a listing which is known not to constitute a legally authorized or adopted name, obscenities in the name, or any listing which, in the opinion of Carrier, is likely to mislead or deceive calling persons as to the identity of the listed party, or is a contrived name used for advertising purposes or to secure a preferential position in the directory or is more elaborate than is reasonably necessary to identify the listed party. Carrier, upon notification to Customer, will withdraw any listing which is found to be in violation of its rules with respect thereto.
- 4.2.3 In order for listings to appear in an upcoming directory, Customer must furnish the listing to Carrier in time to meet the directory publishing schedule.

SECTION 4 – DESCRIPTION OF SERVICES (Continued)**4.5 CALLER ID BLOCKING (Continued)****4.5.2 Per-Line Blocking**

Customers requesting Per-Line Blocking will prevent the display of their telephone numbers on all outgoing calls. The Per-Line Blocking feature may be deactivated at any time by Customers on a call-by-call basis through the activation of a special code. Blocking will be deactivated for that outgoing call only. Per-Line Blocking is provided free of any recurring charge, but is a special feature which must be ordered by Customers.

The Company will initially install Per-Line Blocking at no charge. Requests to remove Per-Line Blocking on Customer lines will be completed at no charge. Subsequent requests to re-install Per-Line Blocking will be completed at prevailing Company non-recurring service order rates.

Per-Line Blocking will not prevent the display of originating telephone numbers to 911 emergency service providers.

Customers who use either per-call blocking or line blocking may be unable to complete calls to Caller ID Number/Caller ID Name subscribers who have activated the Anonymous Call Rejection feature of Caller ID Number/Caller ID Name Service. If a customer using blocking calls a Caller ID Number/Caller ID Name subscriber who has activated Anonymous Call Rejection, he/she will hear an announcement that the Caller ID Number/Caller ID Name subscriber is not accepting blocked calls. There are several ways to complete a call to a Caller ID Number/Caller ID Name subscriber who has activated Anonymous Call Rejection: (1) place the call through an operator; (2) place the call using a calling card; or (3) place the call without blocking. Options (1) and (2) involve charges in addition to the cost of the call.

4.6 SPECIAL PRICING ARRANGEMENTS - INDIVIDUAL CASE BASIS (ICB)

In lieu of the rates otherwise set forth in this Tariff, rates and charges, including installation, special construction, and recurring charges, may be established at negotiated rates on an Individual Case Basis (ICB), taking into account such factors as the nature of the facilities and services, the costs of construction and operation, the volume of traffic commitment, and the length of service commitment by the Customer, as long as the rates and charges are not less than Carrier's costs of providing the service. Such arrangements shall be considered Special Pricing Arrangements, the terms of which will be set forth in individual contracts or Customer Term Agreements. Specialized Pricing Arrangement rates or charges will be made available to similarly-situated Customers on comparable terms and conditions.

6.1.1 Description

The Pennsylvania Telecommunications Relay Service (TRS) is a relay telecommunications service for the deaf, hearing and/or speech disabled population of the Commonwealth. The service permits telephone communications between individuals with hearing and/or speech disabilities who must use a text telephone and individuals with normal hearing and speech as provided in the tariff filed by AT&T Communications of Pennsylvania, Inc.

6.1.2 Surcharge

In addition to the charges provided in this Tariff and applicable intrastate toll tariffs, a surcharge will apply to business access lines served by this Carrier. This surcharge applies regardless of whether or not the access line uses the Pennsylvania Telecommunications Relay Service.

This surcharge serves as the funding vehicle for the operation of the Pennsylvania Telecommunications Relay Service, and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the Pennsylvania Relay Service Surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve-month period commencing with July 1 of each year.

A request to modify content by the Host Telephone Company shall be responded to by the county/municipality within ten (10) business days or the request is deemed to be approved. The request shall be in writing and shall set forth in reasonable detail the proposed modification and all reasons in support. The request shall be granted provided the modification is necessary for the Host Telephone Company's provision, maintenance, or upgrading of the 9-1-1 service.
- G. The request shall be in writing and shall set forth in reasonable detail the formatting changes and all reasons in support. The county/municipality shall respond to the request in ten (10) business days or the request is deemed to be approved. For the purposes of this regulation, a content or formatting change does not include the use of the MSAG content in telephone companies' operational support systems to validate customer information for input to the ALI database.
- H. The service provider will not sell, lease, rent, loan or provide, or transfer the county's/municipality's MSAG to any other person(s) or entity(ies) without the express written authorization of the county's/municipality's 9-1-1 coordinator, or his or her designee.
