PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

Consumer Services
CAC Division

I AM NOT GOING AWAY UNTIL THIS COMPANY (U-G-T CORP.) SUPPLIES THE SAME NATURAL GAS TO HAZLETON, PA. AS WE PAY THE SAME PRICE BUT GET 5 CHEMICALS WHICH HARM OUR HEALTH. WE HAVE DRIP PIPES WHERE OTHERS DO NOT. THIS COMPANY USED TO MAKE GAS OUT OF COAL YEARS AGO. I BELIEVE THE CHEMICALS WERE ADDED BECAUSE OF CARBON MONOXIDE. U.G.T. THEN LEFT THESE CHEMICALS IN THE SAME PIPES USED NOW TO SUPPLY NATURAL GAS. OTHER CITIES GET NATURAL GAS AND ETHYL MERCAPTAN. THE HAZLETON PA. AND SURROUNDING AREA GETS GAS AND YELLOW WALLS AND STICKY THINGS IN THE KITCHEN. NO DRIP PIPES, NO CHEMICALS AND NO YELLOW WALLS MUST BE ON EVERY ONE. WE DESERVE THE SAME.

PA. Public Utility Commission pg. 2

Just because U.G.I Corp. became paranoid when they were making gas out of coal does not mean people must now suffer from health problems and yellow walls. U.G.I. must supply natural gas. This is also why some people heard of yellow walls with gas ranges and others wonder what is he talking about and do not get yellow walls and also have natural gas supplied by U.G.I. Corp. It's U.G.I's move. I better hear from them or I will sue them. Only people who work at the Hazleton, PA. depot must contact me. Everyone I wrote and did not contact me or provide no service to this area (E.P.A.) will also be sued. We deserve what others get, as we also pay U.G.I. Corp., only we get health problems and yellow walls. I am not going away until Hazleton, PA and surrounding area receives natural gas, just like everyone else.

pg. 3

Their chemical is now coming out of a gas duct. This yellow chemical is landing on new vinyl siding and railing on a new deck. It's also on my kitchen window and basement window. Obviously this is blowing around with the wind. Someone could get this in their eye. U.G.I. does not care if a kid goes blind or gets serious eye damage. Why? I only have one eye but I wear glasses. Not everyone wears eye-glasses and does have a better chance of getting this in their eye. U.G.I. must also provide a safe product, just like Verizon, AT&T, PPL Corp. and water companies. Their product will cook food and heat houses and could cause eye damage now added to the list. A safe product for all, but not safe at all in the Hazleton, PA. Area.

Respectfully:

(570) 455-5110

3105 N. Vine St. Hazleton, PA 18202
