RECEIVED
Complaint #2
2012 MAR -7 AM 9:35
SECRETARY'S OFFICE
2012

Secretary: C-2012-2287503

Received Mr. Crayne's letter today. This letter also comments on my complaint with U.G.T. Utilities. Please tell U.G.T. to come here and see the mess their chemical made and will continue to make as long as the heat (furnace) is ON. This mess won't clean itself and why clean it since it will become a mess again next fall when the heat goes on again and also becomes a hazard again for kids eyes and the public. You do act on behalf of the public don't you?

Why isn't Mr. Crayne trying to get this complaint dropped, like he did with complaint #1. No to phone hearings again. No one is going to make decisions before the hearing, that wouldn't be fair. I AM A PAYING CUSTOMER

Complaint # 2

PA. Public Utility Commission

who does not owe any back money and all are paid on time. U.G.I. must come here and see what they have done. Any one would want to see, a contractor, plumber, electrician, etc. Why doesn't U.G.I. want to see? Afraid of a person who is dying? Why? This hearing and its decision will not correct anything and should be held in the town that has drip pipes. A plumber who does work for U.G.I. goes berserk everytime I mention it to him. Why didn't he complain? U.G.I. Corp would see that he starves. U.G.I. must see to it that their ducts do not become a hazard again next fall and years after. Steps must be taken now or their hazard will continue year after year. It will also become worse as furnaces are replaced, and chimneys are not used. Chances of kids or adults will only increase

Chances of getting hit in the eye will become more and more likely. Make a decision on this complaint. It means nothing if U.G.I. Utilities continues to ignore what is happening. That's why U.G.I. must come and see this. You say safe, at one time it was but new technology changed all that when chimneys were and continue to become unused. Not safe here and with others who replaced furnaces. The PUC's decision must not only be for me but for all who have gas and drip pipes. The cities who do not have drip pipes are the ones who are safe from yellow walls in the kitchen, health problems and getting their hot chemical in the eye. You act on behalf of the public or gas companies? You can't have your cake and eat it too. Health problems will come from

B-1-2012

high blood pressure, diabetes,
etc. don't let U.G.I Utilities
Add to this list. Please, don't
Add eyes! Do everyone in
Hazleton A great FAVOR AND
tell U.G.I Utilities to please
come to my residence. The PUC
is also welcome. Are you Afraid
of A dying person with one eye
Also? Your decision must be
A safe one year after year after
year, for everyone in the Hazleton
And surrounding Area.

Respectfully,

Michael J. Mitchell

P.S. Please read my letters.
or comment on them. GAS COMPANY
didn't come and PUC REMAINS AS SILENT
AS before. You didn't know, or do you just play
dumb? Why doesn't the PUC want to see
this? MAKES one wonder.
