RE: Act 129 Energy Efficiency and Conservation Program Phase II
Docket Number M-2012-2289411

Dear Madam Secretary,

The Act 129 Energy Efficiency and Conservation Program in Pennsylvania has been a great success in not only saving energy, but also in helping Pennsylvanians to better understand some of the benefits of sustainability.

This purpose of this letter is to express support for the continuation of Act 129 Energy Efficiency and Conservation Program without interruption for an additional five years.

While the Act 129 program has resulted in electricity savings to date, the program has only captured a fraction of the savings that can be realized by extending and modestly modifying the current program to enable greater numbers of residents and smaller commercial and institutional customers to participate. It is essential, for example, to continue the 10% carve-out for the institutional sector but given the over-all impact, establish a slightly higher consideration for helping to provide Green schools.

Sincerely,

Angus Steinson
