C-2012-2287503

PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

Pa. Public Utility Commission
Office of Administrative Law Judge, Room 317
Scranton State Office Building
100 Lackawanna Avenue
Scranton, PA. 18503

My intention was to warn people
As much as I'd like to continue with
this I see a very unhealthy group
of people. It's something to try and
warn people (I think I managed to do
that) it's another thing to push it.
With my health failing and not being
young anymore I will not continue
but hopefully someone does not
forget what I tried to do. I told
it, I know I don't even have the
decent yet to come and take something
I did not expect. No one had to be
a sponsor out what ever. on the internet
either my problem is no one cares
then at least it warned the PUC about
As of April 29, 2012 I am dropping
my complaint with the Atty General
and PUC. I found out one thing
No one cares, then why should I.
I did my job. I reported it. And over
it will no one cares.

Respectfully:

Michael J. Mitchell

3105 N. Vine Street

Hayle Township, Pa.

18202

(570) 455-5110

What you are doing doesn't seem legal. I won't be part of or involved. Reminds me of...
in dropping my complaint with

U. G. I. U. Intivers as of April 29, 2012

NO MORE. Shred any dated letters. That I know you will do. M. J. Mitchell

Code violations. No time for jokes!

It's up to the U. G. and Atty General to pursue this. Hopefully no one gets this chemical in their eyes. Do you care about kids' eyes? A very unhealthy group of people. Hopefully someone remembers what I tried to do. You seem to want that chemical. Move to Hazleton or surrounding area. The complaint is gone not the chemical, on the gas ducts, on the kids. I do not have kids as I am single.

I did not receive anything from the Atty. Generals office in Scranton, PA. More proof

NO ONE CARES. No one can put a good act

on for the public. One thing, you got to

use your shredder. Finally a form letter from Atty General
