Supporting Information

7a.) Bonding:

URA, Inc. is submitting a bond in the amount of \$10,000.00 because of the following facts:

URA has made this application for transfer of this license in order to serve strictly as a consultant for clients and will not be taking title to any electricity purchases nor will URA be collecting any revenue, sales tax or Gross Receipts Tax from clients.

7d.) Appendix F, Section 7A

URA will not be collecting any revenue, sales tax or Gross Receipts Tax from clients. Clients will be paying both Electric Generation Suppliers and Electric Distribution Companies directly thus removing any taxes or revenue collection obligations from URA.

8a.) Technical Fitness:

URA has been in existence since 1991. Stephen Cantore (President) originally worked in billing/accounting and meter reading for 7 years with a utility company. We have been auditing Pennsylvania utility bills since 1991 and are very knowledgeable of this industry. We have been brokering electricity since obtaining PUC license A-2009-2133996 in 2009. We service mostly medium and large companies, such as hotels, manufacturers, commercial realty, etc. (approx. 150 existing clients)

I have compiled the accompanying statements of assets, liabilities, and owner's capital – income tax basis of Utility Rates Analysts (a sole-proprietorship), as of December 31, 2010, and the related statement of revenue and expenses – income tax basis for the year then ended, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants. The financial statements have been prepared on the basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

A compilation is limited to presenting in the form of financial statements information that is the representation of the owner. I have not audited or reviewed the accompanying financial statements and, accordingly, do not express an opinion or any other form of assurance on them.

The owner has elected to omit substantially all of the disclosures ordinarily included in the financial statements prepared on the income tax basis of accounting. If the omitted disclosures were included in the financial statements, they might influence the user's conclusions about the Proprietorship's assets, liabilities, capital, revenues, and expenses. Accordingly, these financial statements are not designed for those who are not informed about such matters.

## Disclosure Statement for Electric Procurement

This is an agreement for electric alternate supply procurement between URA, Inc. and \_\_\_\_\_.

### **Background**

- We at URA are licensed by the Pennsylvania Public Utility Commission to offer alternate electric generation supply in Pennsylvania. Our PUC license number is \_\_\_\_\_.
- We do not set generation prices or charges that you pay. We assist in obtaining pricing from suppliers and in interpreting contract terms. The PUC regulates distribution prices and services. The Federal Energy Regulatory Commission regulates transmission prices and services.
- We do not bill you for our services as we are compensated by the selected supplier; however, you (the customer) may ask us to bill you directly.
- The contract you sign for electric supply is between you (the customer) and the electric supply company.

### **Definitions**

- **Generation Charge:** Charge for the production of electricity.
- **Transmission Charge:** Charge for moving high voltage electricity from a generation facility to the distribution lines of an electric distribution company.
- **Distribution Charges:** Charge for the delivery of electricity to your facility by the electric distribution company (EDC).

### **Terms of Service**

1. **Basic Service Prices**
  - You will pay \_\_\_\_\_ per kWh for electric generation service. This price is considered an “all in” price, which includes transmission and gross receipts tax. Any applicable sales tax will be in addition to this price.
2. **Length of Agreement**
  - You will buy your electricity generation service for the above street address from \_\_\_\_\_ beginning \_\_\_\_\_ through \_\_\_\_\_.
  - This will be for every kWh used unless noted by the alternate supplier in their contract.
3. **Special Conditions**
  - Some suppliers have what is known as “swing” in their contracts. If, for example, your contract reads “20% swing”, this implies that if you use 20% +/- of the purchased electricity in any given month, pricing for the variation will be based on the Locational Market Price (LMP) for that month.
4. **Penalties, Fees, and Exceptions**
  - As we are not collecting any revenues, there will be no penalties of fees applicable between URA and you, the customer.

**Disclosure Statement for Electric Procurement**

- 5. Cancellation Provisions
  - Any cancellation provisions will be noted on supplier agreement and will be between you, the customer, and the supplier.
- 6. Agreement Expiration
  - We will contact you 90 days from the end of your term with the alternate supplier to discuss your options. You can contact URA regarding terms at any time.
- 7. Dispute Procedures
  - Contact URA with any questions regarding your contract. If we cannot satisfy your concerns we will direct you to one of the following contacts.
