PA PUBLIC UTILITY COMMISSION page 1 of 2
SECRETARY'S BUREAU

To whom it Concerns,
and or the Secretary of the Commission,

I STEFANI-LEE PILIPIC, a Plaintiff in reference to F-2010-2210130 Hearing of various disputes, is giving written notice within this May 24th 2012 letter during my 20 day issuance date of Previous letter from your office dated May 4th, 2012, that I Disagree with Findings, and request that this matter still be heard.

I forwarded Hearing date Paperwork to my attorney, This Attorney should have been noted in my paperwork, due to a schedual conflict prior which my attorney had postponed with the Court. You should be dealing with my attorney's office instead of directly with me.

During the time I had forwarded the hearing date to my attorney's firm, My Attorney was dealing with the passing of her husband, and someone no one from your office or Court contacted her firm for scheduled hearing date. As far as I was aware that Hearing date was postponed due to my attorney's inability to be present.

Also I respectfully request that this matter still be heard, due to the fact that this whole issue started due to a Fraud of payment of services by PPL and Warn program, and getting paid of services never done. Which IF these services were intact done, which were NOT, I would not be

in such a situation, as I have been left in for these past years. Because of the false information and neglect of these companies I am suffering financial damages and living hardships. And are the reasons of my bill delinquencies.

I do not want to waive or lose my rights to sue these companies. I wanted this investigated and someone to follow thru with findings of how they were allowed by our State to pay themselves for something they never did. That is Fraud, and I am still the victim of what they did. (didn't do).

Please Reconsider to Have a Hearing, I am a disabled individual, and a victim of two Companies unjust Acts. I also have an attorney which the Courts, and your office for some reason or other overlooked.

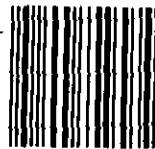

I was understanding due to the immediate loss of my Attorney's husband, that that hearing was postponed.

Again, Please don't let this slip thru the cracks, I need a hearing.

Thank You - Stanis-Je Pitkin
