Docket NO. 2012-2306879

PECO ENERGY COMPANY
Respondent

ANSWER TO PRELIMINARY OBJECTION OF
RESPONDENT, PECO ENERGY COMPANY

1. Denied We have repeatedly expressed our concern for PECO's lack of safe equipment and services since November 2002.

2. Denied, PECO's has never serviced any of their equipment on at or near our property since inspection and turn on May 18, 2002.

3. Denied, The law requires you to apply it. All local public records show property as "unlivable **Vacant** dump site. There is no public record of our Court Order Default or Sheriff Sale. PECO ARTICLE IX. AUTHENTICATION AND IDENTIFICATION Rule 901. Requirement of Authentication or Identification. (7) Public Records or Reports. Evidence that a writing authorized by law to be recorded or filed and in fact recorded or filed in a public office, or a purported public record, report, statement, or data compilation, in any form, is from the public office where items of this nature are kept.

4. Admitted PECO large legal department has the ability to understand the law and apply it before risking its workmen, neighbors and our residents WHO DO LIVE AT OUR HOMES. By simply requesting the Public Record of the Court Order that had us removed as homeowners. Absent this we are the sole homeowner. Any other claim would be fraud, that the legal department would be compelled to report. All would be properly insured and safety measures could be applied.

5-10 Who is PECO instructing the PUC or us? 8. FACT IS OUR PROPERTY IS NOT VACANT. FACT IS PECO LEGAL DEPARTMENT SHOULD KNOW THE LAW!!!

11. Denied a Denied
b. Denied

c. Denied Our name bearing Note, the 5th and 14th admenments require that a property may not be taken without Due Process. *5th Amendment The Due Process and the Clause of the 14th Amendment ratified in 1868, declares, "[N]or shall any State deprive any person of life, liberty, or property, without due process of*

law" (§ 1). This clause limits the powers of the states, rather than those of the federal government. We requested PECO GIANT LEGAL DEPARTMENT provide the Court Order that removed us as homeowners and left our home VACANT

d. Denied PECO failure to apply the law has cost us at the very least \$200.x12=\$2400. x 10yrs = \$24,000+ legal fees, failure to service their equipment, failure to apply safety measures.....etc.....

12-15 PECO is either instructing the PUC or us.

16. Denied, PECO has never attended to any of its equipment on our property. PECO has failed to provide separate service to newly constructed building of 2006. 1032 West Kings Highway Coatesville PA. 19320 despite being separate from us PECO has always denied them services. Forcing us to pay for them.

17. Denied the poll is still standing there.

18. Denied the poll has not been removed. PECO's lack of service to its equipment has put our lives in Danger. The debris PECO is referring has a name it is Matt Bickert who Died when his car was not stopped by the guard rail. Our issue is the false claim a vacancy that prevents us from having homeowner insurance to protect the servicemen working on or near our property.

19. Denied. We have always had to pay for PECO to damage us beginning July 2002. PECO has two meters on our property the one that controlled our hot water, heat, and stove these item could only be used between 2am till 6am. We had to buy a two thousand dollar (\$2,000) duel energy stove that we could light with a match in order to be able to cook during the day.

During this time our electric bills were more than we paid to live in a 4 story, 5 bedroom single house. In August of 2002 we were able to compare the two bills due to PECO turning the service back on at the previous residence. This took months to resolve while we continued to suffer life at our new residence.

What does PECO need relief from? Who was directly hurt by any of our actions? Our property was re-zoned for commercial use. If they do not intend to supply electric to one of the commercial 8 blocks on our property how are they hurt?

Enclosed is just one of the many affidavits showing how we a forced to live. PECO please provide the laws the make this legal.

Affidavit of Living Conditions at 1030 & 1032 (RT340)

West Kings HWY. West Caln Pennsylvania

I, Jane Mabe, was at the closing and witness the August 13th Note being delivered by Jay Mosteller. I have first resided at 1030 West Kings Hwy on or about September 5, 2002. I was needed to attend child while Detlef & Alexandria Semrau worked. Their plan to house Veterans beginning July 5, 2002 and foster care beginning in September would provide a place were I may help.

All but the fireplace is controlled by electric power. PECO had a second lowering cost meter hooked up that controlled the stove, heat, and dryer. The arrangement and condition with the prior defaulted owners carried over to the Semrau.

This arrangement would turn on all electric service to stove, heat and dryer from 2am to 6am only! Alexandria Semrau contacted PECO via a recorded speaker phone. When she explain that we only got electric service for 4 hours a day. It was explained that any trouble inside our home we would have to contact an Electrician. I met with electrician who did confirm that service to the above turned off by PECO on purpose.

This arrangement had us all sleeping in the living room gathered around the fireplace to keep warm. Among us was an infant child and Detlef Semrau recovering from a massive heart attack of September 30, 2002.

We all chipped in on a \$2,000. stove that had gas burners we could cook on during the day and pre-set the stove to bake at night.

When a live wire to the house was struck by lighting it caused a fire inside our home the blowing out all the electric outlets and everything plugin except the stove.

When the utility companies do come on property it is not to service their equipment but to ensure that we are not 'stealing anything'. They bring the West Caln Police.

Whom I personally witnessed attacking Alexandria Semrau on May 13, 2010. They grab her by her hair and neck and attempted to drag a 5' women over 4'6" lock gate. When this did not work the taller of the two male police officers jumped over the gate and chased Mrs Semrau down with his stick out. Her screaming to "let the dogs out", and our opening the doors showing we had the dogs to set lose on him. Is the only reason she had only suffered a black eye, swollen cheek, scratches and a black and blue body.
