Dear Mr. Metro:

RE: Data Requests for Act 127 Gas Pipeline Operators

This is in response to the data request (FL-ACT-1-12) dated May 29, 2012 from the Pennsylvania Public Utility Gas Safety Office requesting certain information that is needed for mapping, new construction, and emergency contact information.

Antero Resources Appalachian Corporation (Antero) recently has conducted a class location survey to verify the Pipeline Operator Annual Registration Form submitted May 15, 2012 for calendar year 2011 to the Pennsylvania Public Utility Gas Safety Office. We have determined that the submitted Registration Form erroneously stated that Antero had 0.3 miles of Class 2 pipeline in Washington County, Pennsylvania. The Class location survey verifies that Antero only operates a total of 1.6 miles of Class 1 Unconventional gas gathering in Washington County, Pennsylvania. Therefore these pipelines are non-jurisdictional. We are submitting a corrected Pipeline Operator Annual Registration Form herewith.

Thus, Antero respectfully submits that Antero Resources Appalachian Corporation operates only Class 1 gathering lines in Pennsylvania, and therefore is not required to respond to the data request. According to Note 1 in the FAQs to Assist in Response to the PAPUC's Gas Safety Data Request Letter, "If you are a natural gas pipeline operator with Class 1 Gathering lines only,..... then you do not need to respond to the data request."

Please do not hesitate to call me with any questions at (719) 440-6728.

Sincerely,

A handwritten signature in black ink that reads "Kaitlin R Baker".
