Re: Mark's Tire Service, Inc. V. Pennsylvania Electric Company
Docket No. C-2012-2314041

Dear Secretary Chiavetta:

I have read the Notice to Plead and all of the responses relative to my complaint against Penelec. I feel that Penelec and their legal muscle is attempting to bury me, the consumer, in a laundry list of legalese. Additionally, it is very apparent to me from their response that "there is no reliability, safety or quality problem with the electric service provided" that Penelec, with the intent of burying the consumer in a web deception is lying about what is obvious. People could have been killed when that power line sliced through the air like a whip.

I find it pathetic that an office with the honor of the great State of Pennsylvania would entertain this kind of deliberate deceptive behavior on the taxpayer dollar from a Goliath like Penelec.

At the request of the PUC, I will provide pictures and video of the downed line, the surrounding area, the damages to property, and the work as it was being performed by Penelec.

I remain steadfast with my original "formal complaint" and believe Penelec needs to open dialogue with my company in order to remedy their mistreatment and deception of my company.

Respectfully,

Mark B. Przybyszewski
President
Mark's Tire Service, Inc.
