SECRETARY'S BUREAU

August 24, 2012

TO ALL PARTIES OF RECORD:

Re: *Daniel Brunda v. PPL Electric Utilities Corp.*
Docket No. C-2012-2286040

Dear Parties:

On August 20, 2012, this office received three different correspondences in the above-cited proceeding. This letter is sent to ensure all parties are aware of the correspondences and to submit two of the correspondences into the Commission's file, which is maintained by the Secretary's Bureau.

By letter dated August 17, 2012, Edward C. Logan, Esq., entered his appearance on behalf of Complainant, Daniel Brunda. This letter was sent to the Secretary's Bureau on that date for inclusion in the official Commission file and was copied to counsel for Respondent, PPL Electric Utilities. The Parties' List now includes Mr. Logan as counsel for Complainant.

As indicated on the hearing record on August 16, 2012 and specified in the Sixth Interim Order dated August 16, 2012, Complainant, who appeared *pro se*, requested permission to include a two-page document, marked as Complainant Exhibit 2, in the hearing record. Complainant averred the two-page document contained a list of his objections and disagreements with the written testimony submitted prior to the hearing by Respondent's witness: J. Michael Silva, P.E. That request was granted, subject to receiving any written objections which might be submitted by Respondent.

On August 20, 2012, the presiding officer received from Complainant a twelve-page document marked as Exhibit 2 which included the two-page document referenced in the hearing on August 16, 2012 plus the two exhibits meant to accompany the written direct testimony of Mr. Silva submitted by Respondent on August 14, 2012. This twelve-page document contains various notations by Complainant in the margins. Because it is not clear if Complainant provided a copy of this document to the Secretary, I will provide a copy of it to the Secretary's Bureau, and cause Complainant Exhibit 2 to be admitted into the official file in this proceeding.

Lastly, on August 20, 2012, the presiding officer received a letter from Béla Lipták, P.E., who avers Complainant asked him to be available to testify on August 16, 2012 on Complainant's behalf. The letter contains opinion statements by Mr. Lipták on electro-magnetic fields. This letter was copied to Complainant but does not appear to have been sent to Respondent or to the Secretary's Bureau. Therefore, I will provide a copy of the letter to the

TO ALL PARTIES OF RECORD

August 24, 2012

Page Two

Secretary's Bureau and direct that the letter be included in the Correspondence file maintained by the Commission in this proceeding in the Secretary's Bureau. Mr. Lipták was not made available as a witness and for cross-examination, therefore, his letter will not be considered evidence in this proceeding.

Sincerely,

Katrina L. Dunderdale
Administrative Law Judge

EMD/C LANT MEASURE
SINCE DATES!!
(EXHIBITS) - NONE OF THE
EXHIBITS INDICATE THE VOLTAGE
OF THE EMT SOURCE!!

Dear Judge Dunderdale:

On August 3, 2011, PPL Electric Utilities Corporation filed its Direct Testimony of J. Michael Silva, P.E. for the above-referenced proceeding. In filing its Direct Testimony, PPL Electric inadvertently did not include copies of Mr. Silva's Exhibits JMS-1 and JMS-2. Enclosed are copies of the Exhibits. Copies will be provided as indicated on the Certificate of Service.

Judge Katrina Dunderdale
Platt Place, Suite 220
301 5th Avenue
Pittsburgh, PA 15222

RE: C-2012-2286040, Initial Telephonic Hearing

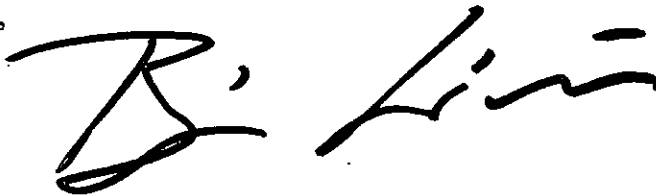

Dear Judge Dunderdale,

Dr. Daniel Brunda asked to make myself available for a conference call today, concerning his case gainst PPL Electric. The call never came, but because I did prepare for it, I would like to share my views on it nwith you.

There is no question that high levels of EMF cause cancer. There is no question that the allowable electromagnetic flux density is not yet properly regulated either for high voltage cables, mobil phones nor anything else.

It is my view that by accepting this case, you would force the utilities to quantify and publish their design bases, the government to defend their lack of regulation and as a result, the public and its representatives would be better informed, which eventually would lead to a safer environment.

Sincerely,

CC: Dr. Daniel Brunda
