**HPG is a group purchasing organization headquartered in Brentwood, Tennessee. Its members are hospitals and other healthcare providers. Its principal business is to enter into contracts with suppliers for products and services that can be purchased by its healthcare provider members for use in providing health services. One of the services HPG provides for its members is assistance in obtaining electricity and natural gas for these facilities.**

**HPG is not engaged now or previously in the retail sale of electricity or natural gas but does provide electric and natural gas energy contract negotiation services to its members. HPG negotiates on behalf of its members for the purchase of electricity or natural gas from third-party licensed competitive suppliers. Each member directly purchases electricity or natural gas from the third-party licensed supplier and remits payment directly to the electric or natural gas distribution company or third-party licensed supplier. HPG does not take title to the electricity or natural gas. HPG serves only its members, which are hospitals and other healthcare providers and are classified as industrial or commercial customers and typically works with members or non-members on gas contracts if their annual consumption exceeds 1,500 dekatherms ("Dth") per year. HPG does not serve residential customers.**

**HPG has supported its affiliate member hospitals in Pennsylvania since 2004. Currently, 25 HPG member facilities use HPG natural gas contracts. The utilities that serve these active contracts include UGI Penn Natural Gas, Philadelphia Gas Works, UGI, National Fuel, Columbia Gas of Pennsylvania, and Equitable Gas.**

**It has been HPG's belief that it qualified as a non-traditional marketer exempt from the Pennsylvania Public Utility Commission's ("Commission" or "PUC") natural gas licensing requirements. However, in light of the Commission's Proposed Rulemaking Order published on April 14, 2012, to review the gas licensing requirements with a stated goal to discontinue the licensing exemptions, HPG is now filing this application out of an abundance of caution.**

## APPENDIX D

### Standards of Conduct

- (1) The [natural gas distribution company] should apply its tariffs in a nondiscriminatory manner to its affiliate, its own marketing division and any nonaffiliate.
- (2) The [natural gas distribution company] should likewise not apply a tariff provision in any manner that would give its affiliate or division an unreasonable preference over other marketers with regard to matters such as scheduling, balancing, transportation, storage, curtailment, capacity release and assignment, or nondelivery, and all other services provided to its affiliated suppliers.
- (3) If a tariff provision is mandatory, the [natural gas distribution company] should not waive the provision for its affiliate or division absent prior approval of the Commission.
- (4) If a tariff provision is not mandatory or provides for waivers, the [natural gas distribution company] should grant the waivers without preference to affiliates and divisions or non-affiliates.
- (5) The [natural gas distribution company] should maintain a chronological log of tariff provisions for which it has granted waivers. Entries should include the name of the party receiving the waiver, the date and time of the request, the specific tariff provision waived and the reason for the waiver. Any chronological log should be open for public inspection during normal business hours.
- (6) The [natural gas distribution company] should process requests for transportation promptly and in a nondiscriminatory fashion with respect to other requests received in the same or a similar period. The [natural gas distribution company] should maintain a chronological log showing the processing of requests for transportation services. Any chronological log should be open for public inspection during normal business hours.
- (7) Transportation discounts and fee waivers and rebates provided to the [natural gas distribution company's] or its marketing affiliate's favored customers should be offered to other similarly situated customers and should not be tied to any unrelated service, incentive or offer on behalf of either the parent or affiliate. A chronological

log should be maintained showing the date, party, time and rationale for the action. Any chronological log should be open for public inspection during normal business hours.

- (8) The [natural gas distribution company] should not disclose any customer proprietary information to its marketing affiliate or division, and to the extent that it does disclose customer information, it should contemporaneously provide this same information to other similarly situated marketers in a similar fashion so as not to selectively disclose, delay disclosure, or give itself or its affiliate any undue advantage related to the disclosure. A chronological log should be maintained showing the date, time and rationale for the disclosure. Any chronological log should be open for public inspection during normal business hours. A natural gas distribution company should not provide information received from non-affiliated customers or suppliers to its affiliated natural gas suppliers.
- (9) The [natural gas distribution company] should justly and reasonably allocate to its marketing affiliate or division the costs or expenses for general administration or support services.
- (10) The [natural gas distribution company] selling surplus gas supplies and/or upstream capacity on a short-term basis (as defined by the Federal Energy Regulatory Commission) to its affiliate should make supplies available to similarly situated marketers on a nondiscriminatory basis. The [natural gas distribution company] should not make any gas supplies and/or upstream capacity available through private disclosure to the [natural gas distribution company's] affiliate unless the availability is made simultaneously with public dissemination in a manner that fairly appraises interested parties of the availability of the gas supplies and/or upstream capacity. The [natural gas distribution company] should maintain a chronological log of these public disseminations. Any chronological log should be open for public inspection during normal business hours.
- (11) The [natural gas distribution company] should not condition or tie agreements to release interstate pipeline capacity to any service in which the [natural gas distribution company] or affiliate is involved.
- (12) The [natural gas distribution company] should not directly or by implication . . . represent to any customer, supplier or third party that an advantage may accrue to any party through use of the [natural gas distribution company's] affiliate or subsidiary.

- (13) The [natural gas distribution company] should establish and file with the Commission a complaint procedure for dealing with any alleged violations of any of the standards listed in paragraphs (1) through (12), this paragraph or paragraphs (14) and (15), excepting for paragraph (9), which should be exclusively under the purview of the Commission. These procedures should be developed in consultation with interested parties during consideration of any tariff guided by this section and §69.191 (relating to general). The Commission may expect establishment of a complaint procedure or other recordkeeping requirements if warranted by subsequent facts or circumstances.
- (14) The [natural gas distribution company] should keep a chronological log of any complaints, excepting paragraph (9), regarding discriminatory treatment of natural gas suppliers. This chronological log should include the date and nature of the complaint and the [natural gas distribution company's] resolution of it. Any chronological log should be open for inspection during normal business hours.
- (15) Parties alleging violations of these standards may pursue their allegations through the Commission's established complaint procedures. A complainant bears the burden of proof consistent with 66 Pa. C.S. (relating to Public Utility Code) in regard to the allegations.
- (16) Licensees shall provide accurate information about their natural gas supplier services using plain language and common terms. Where new terms are used, such terms must be defined again using plain language: Information should be provided in a format which will allow for comparison of the various natural gas supply services offered and the prices charged for each type of service.
- (17) Licensees shall provide notification of the change in conditions of service, intent to cease operation as a natural gas supplier, explanation of denial of service, proper handling of deposits and proper handling of complaints in accordance with Commission regulations where applicable.
- (18) Licensees shall maintain the confidentiality of customers' historic payment information and right of access to their own load and billing information.

- (19) Licensees shall not discriminate in the provision of natural gas supply services as to availability and terms of service based on race, color, religion, national origin, sex, marital status, age receipt of public assistance income, and exercise of rights under the Consumer Credit Protection Act, 15 U. S. C. §§1691-1691f; Regulation B, 12 C.F.R. §§202-202.14.
- (20) Licensees will be responsible for any fraudulent deceptive or other unlawful marketing or billing acts performed by their agents or representatives. Licensee shall inform consumers of state consumer protection laws that govern the cancellation or rescission of natural gas supply service contracts. 73 P. S. §201-7.
- (21) The natural gas distribution company shall not give any affiliate or marketing division preference over a non-traditional affiliate in the provision of goods and services such as processing requests for information, complaints and responses to service interruptions. The natural gas distribution company shall provide comparable treatment without regard to a customer's chosen natural gas supplier.
- (22) No transaction between the natural gas distribution company and an affiliated natural gas supplier shall involve an anti-competitive cross-subsidy and all such transactions shall comply with applicable law.
- (23) Natural gas distribution company employees who have responsibility for operating the distribution system, including natural gas delivery or billing and metering, shall not be shared with an affiliated or divisional Supplier, and their offices shall be physically separated from the office(s) used by those working for the Supplier. Such natural gas distribution company employees may transfer to a Supplier provided such transfer is not used as a means to circumvent these interim standards of conduct. Any supplier shall have its own direct line management. Any shared facilities shall be fully and transparently allocated between the natural gas distribution company function and the Supplier function. The natural gas distribution company accounts and records shall be maintained such that the costs a Supplier incurs may be clearly identified.
- (24) (a) Neither the natural gas distribution company nor an affiliated or divisional Supplier may directly or by implication falsely and unfairly represent:

- that the Pa PUC jurisdictionally regulated services provided by the natural gas distribution company are of a superior quality when power is purchased from an affiliated or divisional Supplier; or
- that the merchant services (for natural gas) are being provided by the natural gas distribution company rather than an affiliated or divisional Supplier;
- that the natural gas purchased from a Supplier that is not an affiliate or division of the natural gas distribution company may not be reliably delivered;
- that natural gas must be purchased from an affiliate or divisional Supplier to receive Pa PUC jurisdictional regulated services.

(b) The natural gas distribution company shall not jointly market or jointly purchase its Pa PUC jurisdictional regulated services with the services of an affiliated or divisional Supplier. This prohibition includes prohibiting the natural gas distribution company from including bill inserts in its natural gas distribution company bills promoting an affiliated or divisional Supplier's services, and further precludes a reference or link from the natural gas distribution company's web-site to any affiliated or divisional supplier.

(c) When an affiliated or divisional Supplier markets or communicates to the public using the natural gas distribution company name or logo, it shall include a disclaimer that states:

(i) That the Supplier is not the same company as the natural gas distribution company; (2) that the prices of the Supplier are not regulated by the Pa PUC; and (3) that a customer does not have to buy natural gas or other products from the Supplier in order to receive the same quality service from the natural gas distribution company. When a Supplier advertises or communicates verbally through radio or television to the public using the natural gas distribution company name or logo, the Supplier shall include at the conclusion of any such communication a disclaimer that includes all of the disclaimers listed in this paragraph.

(25) The natural gas distribution company must: (a) make interstate capacity available for release, assignment, or transfer to its affiliated or divisional Supplier only through the interstate pipeline electronic bulletin boards and the competitive bidding procedures in place on those interstate systems; (b)

not give its affiliated or divisional Supplier any preference over non-affiliated or non-divisional Suppliers, or potential non-affiliated or non-divisional Suppliers, in matters relating to the assignment, release, or other transfer of the natural gas distribution company's capacity rights on interstate pipeline systems; and (c) not condition or tie its agreement to release, assign, or otherwise transfer interstate pipeline capacity to any agreement by a gas Supplier, customer or other third party relating to any service in which its marketing affiliate is involved.

Dear Mr. Ervin:

We understand that HealthTrust Purchasing Group, L.P. has applied with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania including our company's service area.

Because HealthTrust Purchasing Group, L.P. intends to only provide natural gas aggregating, brokering and consulting services at this time, we have determined that HealthTrust Purchasing Group, L.P. will not be required to post a bond or other form of financial security instrument to provide these services in our service area. However, if the services provided or failure to meet our requirements for credit worthiness changes in the future, we reserve the right to require security from HealthTrust Purchasing Group, L.P. as deemed appropriate.

If you have any questions, please contact Mrs. Marjorie Johnston at 570-888-9664.

Re: Security Requirement for HealthTrust Purchasing Group, L.P.

Dear Jon:

National Fuel Gas Distribution Corporation ("NFGDC") is aware that HealthTrust Purchasing Group, L.P. ("HealthTrust") has filed an application with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania and specifically within the service territory of NFGDC.

As you know, in making such an application, HealthTrust must furnish acceptable security to each utility where HealthTrust will do business. As such, under its tariff, NFGDC could require HealthTrust to provide a bond or other financial security instrument in an amount that NFGDC determines to be appropriate.

However, you have indicated, and it is NFGDC's understanding that, HealthTrust intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, HealthTrust will never take title to any delivered natural gas.

Based upon your representations, NFGDC has determined that, at this time, HealthTrust does not need to post a bond or other form of security to operate in its service territory. However, if the services provided by HealthTrust change in the future, NFGDC reserves the right to require security from HealthTrust as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at 716-857-7796.

Yours truly,

RE: HealthTrust Purchasing Group, L.P.'s application to serve as a Pennsylvania Natural Gas Broker

Dear Mr. Ervin,

Based on representations on the part of HealthTrust Purchasing Group, L.P. ("Health Trust") that it is applying to serve as a Natural Gas Broker in Pennsylvania and the understanding that, as a Natural Gas Broker, Health Trust will not be taking title to gas to directly serve end use customers and further, that Health Trust is required to utilize the services of a licensed Natural Gas Supplier who has been approved to serve in the applicable UGI service territories and who has posted the required financial security as specified in the respective Choice Supplier Coordination tariffs, UGI Utilities has concluded that, at this time, Health Trust will not be required to post security with UGI-Central Penn Gas, UGI-Penn Natural Gas or UGI Utilities, Inc. If Health Trust amends its Pennsylvania license to become a Natural Gas Supplier and directly serve Choice customers in any of the UGI service territories in the future as a Natural Gas Supplier, Health Trust must post security as specified in the respective UGI tariffs prior to directly serving Choice customers as a Natural Gas Supplier.

Please feel free to contact me with any additional questions that you may have.

However, if the services provided or failure to meet our requirements for credit worthiness changes in the future, we reserve the right to require security from HealthTrust Purchasing Group, L.P. as deemed appropriate.

If you have any questions, please contact Matthew Morris at 412-395-3915.

Sincerely,

PECO is aware that HealthTrust Purchasing Group, L.P. has applied for a license to provide brokering and consulting services to commercial and industrial customers on the distribution system of PECO.

In making such an application, HealthTrust Purchasing Group, L.P. could be required to provide to PECO a bond or other acceptable financial security in an amount that PECO determines to be appropriate. HealthTrust Purchasing Group, L.P. has indicated that it intends to provide only brokering and consulting services to commercial and industrial customers, will not take title to any delivered natural gas; nor will accept any customer payments or deposits. Therefore, PECO has determined at this time that HealthTrust Purchasing Group, L.P. does not need a bond or other financial security requirement, since they are not directly engaging in business with PECO and only providing brokering or consulting services to PECO customers. However, if the services provided by HealthTrust Purchasing Group, L.P., or the creditworthiness requirement for PECO's exposure to HealthTrust Purchasing Group, L.P. changes in the future, PECO reserves the right to require HealthTrust Purchasing Group, L.P. to provide a bond or other financial security instrument.

Dear Mr. Ervin:

We are pleased that HealthTrust Purchasing Group, L.P. ("HealthTrust") has applied for a license to provide Natural Gas Broker/Marketer Services on the distribution system of Columbia Gas of Pennsylvania, Inc. ("Columbia Gas").

Under Paragraph 2.4.5 of the Rules Applicable to Distribution Service section of the Tariff of Columbia Gas, HealthTrust could be required to provide to Columbia Gas a bond or other financial security instrument in an amount that Columbia Gas determines to be appropriate. HealthTrust has indicated only brokering and consulting services will be provided. Therefore, we have determined at this time that HealthTrust does not need a bond or other financial security requirement to provide broker natural gas services to Columbia Gas customers.

If the creditworthiness requirement or Columbia Gas' exposure to HealthTrust changes in the future, Columbia Gas might deem it appropriate to require HealthTrust to provide a bond or other financial security instrument.

Please feel free to contact me at 614-460-6841 should you have any questions regarding a bond or other financial security instrument requirements of Columbia Gas.

Re: Security Requirement Bond for Health Trust Purchasing Group, L.P.

Dear Mr. Ervin:

Philadelphia Gas works (PGW") is aware that Health Trust Purchasing Group, L.P. has filed an application with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania and specifically within the services territory of Philadelphia Gas Works.

As you know, in making such an application, Health Trust Purchasing Group, L.P. must furnish acceptable security to each utility where Health Trust Purchasing Group, L.P. will do business. As such, under its tariff, Philadelphia Gas Works could require Health Trust Purchasing Group, L.P. to provide a bond or other financial security instrument in an amount that Philadelphia Gas Works determines to be appropriate.

However, you have indicated, and it is Philadelphia Gas Works' understanding, that Health Trust Purchasing Group, L.P. intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, Health Trust Purchasing Group, L.P. will never take title to any delivered natural gas.

Based upon your representations, Philadelphia Gas Works has determined that, at this time, Health Trust Purchasing Group, L.P. does not need to post a bond or other form of security to operate in its service territory. If the services provided by Health Trust Purchasing Group, L.P. should change, Philadelphia Gas Works reserves the right to require security from Health Trust Purchasing Group, L.P. as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at (215) 684-6899.

Sincerely,
