**Re: PPL Electric Utilities Corporation
Request for Exclusion of October 29 – November 7, 2012
Major Outage Data for Reliability Reporting Purposes**

Dear Ms. Chiavetta:

Enclosed for filing on behalf of PPL Electric Utilities Corporation ("PPL Electric") are an original and three (3) copies of PPL Electric's Request for Exclusion of October 29 – November 7, 2012 Major Outage Data for Reliability Reporting Purposes. This request is being filed pursuant to the Commission's Order, entered May 11, 2004, at Docket No. M-00991220.

This request for exclusion of major outage data relates to the electric service interruptions associated with Hurricane Sandy which adversely affected PPL Electric's service territory from October 29 through November 7, 2012. Specific impacts of this event are detailed in PPL Electric's Storm Report of Electric Service Interruptions filed on November 21, 2012, pursuant to the Commission's regulations at 52 Pa. Code § 67.1. The requested exclusion applies only to electric service interruptions directly related to Hurricane Sandy during the specified time period.

Pursuant to 52 Pa. Code §1.11, the enclosed document is to be deemed filed on November 27, 2012, which is the date it was deposited with an overnight express delivery service as shown on the delivery receipt attached to the mailing envelope.

Rosemary Chiavetta, Secretary

November 27, 2012

In addition, please date and time-stamp the enclosed extra copy of this letter and return it to me in the envelope provided.

If you have any questions regarding the enclosed document, please contact me or Joseph M. Kleha, PPL Electric's Manager – Regulatory Compliance and Rates at (610) 774-4486.

Very truly yours,

A handwritten signature in black ink, appearing to read "Paul E. Russell". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

Paul E. Russell

1. Requesting Utility: PPL Electric Utilities Corporation

NOV 27 2012

Address: System Emergency Center

**PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU**

827 Hausman Road

Allentown, PA 18104-9392

2. Name and title of person making request:

Stephen J. Gelatko

Manager, Distribution Asset Management

(Name)

(Title)

3. Telephone number:

610-774-4785

(Telephone Number)

4. Interruption or Outage:

(a) Number of customers affected: 523,936

Total number of customers

in service territory: 1,390,179

(b) Number of troubled locations in each geographic area affected listed by county and local political subdivision:

PPL Electric does not track cases of trouble by county or political subdivision.

The number of cases of trouble by geographic area is shown on Attachment 1.

Counties and political subdivisions that correspond to PPL Electric's

geographic areas are shown on Attachment 2.

(c) Reason for interruption or outage, including weather data where applicable:

During the morning of Monday October 29, 2012, PPL Electric Utilities Corporation's ("PPL Electric") 29-county service area began to feel the effects of Hurricane Sandy ("Sandy"). At this time, Sandy was a Category 1 hurricane with sustained winds of 90 mph located 200 miles southeast of Atlantic City, NJ. The storm began to evolve into an unusual hybrid super storm as Sandy converged with a low pressure system to the west, producing an extremely wide area of heavy wind. The heaviest winds were felt within PPL Electric's service territory during the late evening of Monday, October 29, 2012. Hazardous winds continued throughout the following day, with the Lehigh and Northeast regions experiencing the most severe and sustained winds. Various weather stations in Allentown recorded the highest wind gusts in the state ranging from 70 to 81 mph, while gusts above 60 mph were recorded in the Pocono area.

In addition to the hazardous winds, heavy rain blanketed the service territory from Monday night through late Tuesday, October 30, 2012, causing localized flooding and loose soil conditions. Most of PPL Electric's service territory experienced at least 2 inches of rain, while some areas received up to 5 inches. The wind and rain caused large trees and branches from outside PPL Electric's rights-of-way to make contact with transmission and distribution facilities resulting in many downed conductors and broken poles. In some areas, restoration efforts early in the storm were hampered by the heavy wind because bucket trucks cannot safely operate in winds above 30 mph.

Hurricane Sandy's size of nearly 1,000 miles produced extreme weather across at least 17 states. At landfall, Sandy's barometric pressure was 945.5 mb, making it the most powerful storm north of Cape Hatteras, NC since 1938. Long-standing low pressure records were broken in the Harrisburg and Scranton areas.

(d) The number of utility workers and others assigned specifically to the repair work:

721 PPL Electric physical workers, 2,822 external physical workers, 913 support personnel.

(e) The date and time of the first notification of a service interruption:

10/29/2012

6:00 AM on

(f) The actual time that service was restored to the last affected customer:

11/7/2012

8:30 PM on

Remarks: There were 254 permanent 12kV circuit breaker interruptions which resulted in 341,787 customer service interruptions of which 32,909 were transmission-related.

A total of 4,456 people worked in various capacities to support the restoration effort.

PPL Electric handled over one million contacts through telephone, web and mobile service outage reports and/or status updates during the duration of this event.

For events of this magnitude, Customer Minutes Interrupted (CMI) may be a more revealing measure of the extent of damage than cases. A feeder that is locked out is measured as one case of trouble when in fact there may be a dozen or more embedded service outages on the feeder as a result separate instances of damage. During Hurricane Sandy PPL Electric sustained over 1,200,000,000 (1.2 billion) CMI. The next most damaging event on record, Hurricane Isabel, caused approximately 300,000,000 (300 million) CMI.

After printing this label:

1. Use the 'Print' button on this page to print your label to your laser or inkjet printer.
2. Fold the printed page along the horizontal line.
3. Place label in shipping pouch and affix it to your shipment so that the barcode portion of the label can be read and scanned.

Warning: Use only the printed original label for shipping. Using a photocopy of this label for shipping purposes is fraudulent and could result in additional billing charges, along with the cancellation of your FedEx account number.

Use of this system constitutes your agreement to the service conditions in the current FedEx Service Guide, available on fedex.com. FedEx will not be responsible for any claim in excess of \$100 per package, whether the result of loss, damage, delay, non-delivery, misdelivery, or misinformation, unless you declare a higher value, pay an additional charge, document your actual loss and file a timely claim. Limitations found in the current FedEx Service Guide apply. Your right to recover from FedEx for any loss, including intrinsic value of the package, loss of sales, income interest, profit, attorney's fees, costs, and other forms of damage whether direct, incidental, consequential, or special is limited to the greater of \$100 or the authorized declared value. Recovery cannot exceed actual documented loss. Maximum for items of extraordinary value is \$1,000, e.g. jewelry, precious metals, negotiable instruments and other items listed in our ServiceGuide. Written claims must be filed within strict time limits, see current FedEx Service Guide.
