DUQUESNE LIGHT COMPANY

Interrogatories and Requests for Production of Documents of System Council U-10, IBEW Set 1

7. Re: Duquesne St. 1-R, page 6, lines 6-19. Is Duquesne continuing to support the reasonableness of its original position, or is Duquesne adopting a new position that supports the reasonableness of an auction and/or expert valuation at the Commission's option?

Response:

Duquesne's original position was and still is reasonable as a method to determine market value. In the rebuttal testimony, Duquesne has made a specific proposal that responds to certain concerns raised by intervenors. The Company considers this modified proposal to be reasonable as well.
