**Re: Application of Park Power, LLC for Approval to Offer, Render, Furnish  
or Supply Electric Generation Services  
Docket No. A-2012-2328664**

Dear Secretary Chiavetta:

Please accept this letter as a supplement to Park Power, LLC's ("Park") responses to the second set of data requests issued in connection with its Electric Generation Supplier License Application.

As indicated in Park's Application, Park has retained GP Renewables & Trading ("GP Renewables") to provide procurement support and assist Park Power in supervising and managing short and long term wholesale procurement and supply obligations on an as-needed basis. To clarify, GP Renewables is strictly a consultant to Park Power and does not purchase or take title to any energy. GP Renewables will provide guidance and support to Park Power, but all procurement decisions and executions will be made solely by Park Power, and GP Renewables does not, and will not, deal with end-use customers at all.

If you have questions, please do not hesitate to contact me.

Very truly yours,

Gary DeSanto

President of Park Power, LLC
