NOTES TO FINANCIAL STATEMENTS

(See Accountants' Review Report)

June 30, 1984 and 1983

NOTE 1: Company Operations and Summary of Significant Accounting PoliciesCompany Operations

The Company is primarily involved in the processing and sale of honey and other related products.

Inventories

The inventories at June 30, 1984 and 1983 are primarily comprised of the costs of raw honey. This product is valued at the latest invoice price but not in excess of market. Inventory quantities are determined by means of a physical count taken on June 30 of each year.

Property and Equipment

Property and equipment are recorded at cost. Depreciation is provided on the straight-line and accelerated methods for both financial reporting and income tax purposes over periods ranging from 3 to 40 years. Maintenance and repairs are charged to earnings as incurred; major renewals and betterments are capitalized. When items of property or equipment are sold or retired, the related cost and accumulated depreciation are removed from the accounts and any gain or loss is included in income.

Accounts Receivable

The Company has chosen the direct write-off method for recording uncollectible accounts receivable. Under this method, the Company charges operations for any accounts receivable which become worthless during the year.

Investment Tax Credit

Investment tax credits are treated as a reduction of income tax expense in the year in which the credits are utilized.

NOTE 2: Notes Receivable

The notes receivable at June 30, 1984 and 1983 consist of the following:

	<u>1984</u>	<u>1983</u>
