PPL

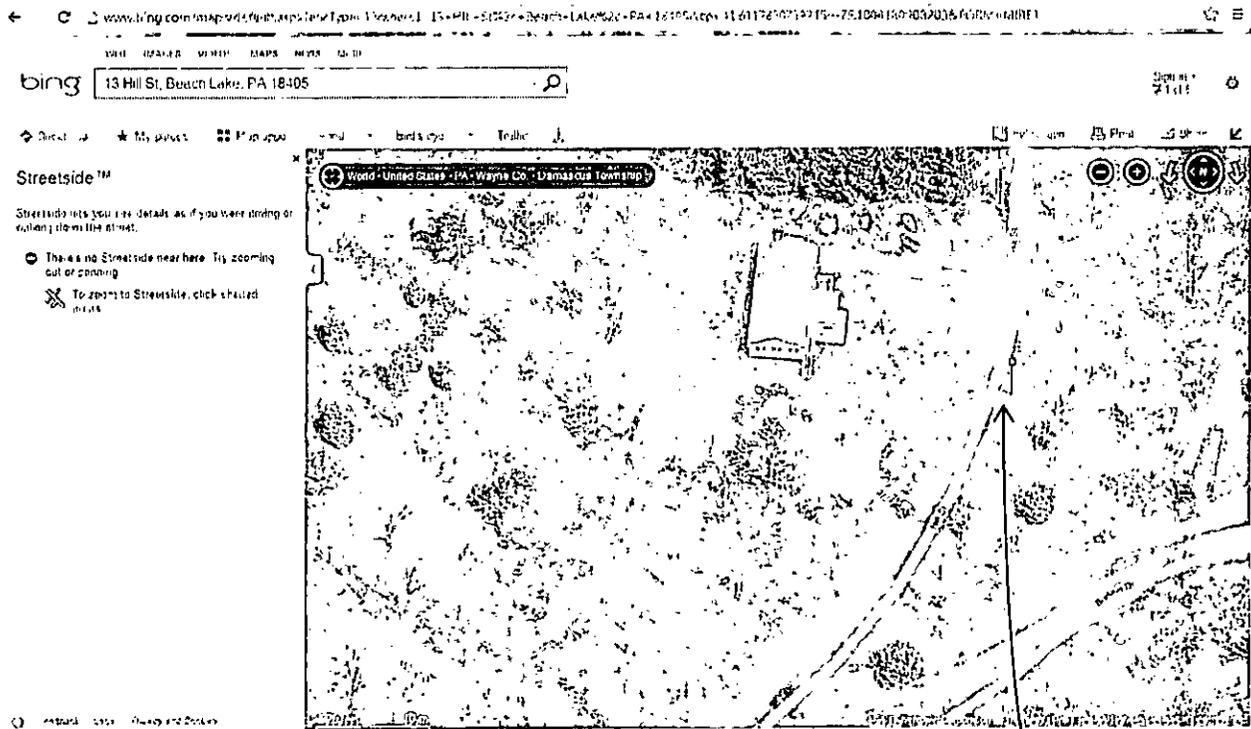

I never requested the street light (area light)

I was billed deceptively until 2011 when I quickly demanded to have the street light removed from my bill

As you can see from the 2 random statements that PPL did not clarify that I was being billed for a street light

As you can see from my bill that the street light was working even though the main breaker of my house was off, I was unable to turn on or off this street light

As you can clearly see on the Satellite picture (taken through bing maps) that it is in fact a street light, and the street light is not on my property,
