To Whom It May Concern:

The Commission's licensing regulations at 52 Pa. Code §54.32(g) require that all electric generation suppliers who were granted "Interim Licenses" shall apply, by December 7, 1998, for a permanent license by updating its prior license application to include additional and updated information required by 52 Pa. Code §54.33. The purpose of this letter is to set forth the specific information required.

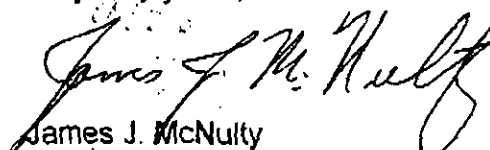

To update its license application, an interim licensee must submit a letter which includes the following:

- (1) Any material changes in the information provided in the original application (e.g., material changes in original organizational structure);
- (2) Any material changes in the scope of operations, i.e. expansion of geographic area in which service will be provided, or addition of other customer classes to which service will be offered; and
- (3) Any change in the customer contact person.

Please note that the following are not required:

- (1) Filing of a new application;
- (2) Payment of a filing fee; and
- (3) Publication in newspapers, unless an expansion of service area is being proposed.

Very truly yours,

James J. McNulty
Secretary
