PA PUBLIC UTILITY COMMISSION  
SECRETARY'S BUREAU

Ms. Chiavetta,

As we near the dates for not only the annual PUC registration of jurisdictional pipe, but also the request for segregation points between Williams and its partner Chevron on jurisdictional pipe, I respectfully request an extension in time for submittal of both reports by 26 days to May 1, 2013.

As the company works through this process it became apparent that the segregation point study would affect the footage of jurisdictional pipe due to the removal of non regulated production or "flow" lines, as defined in API RP80, from our analysis that we erroneously reported in 2012. In an effort to ensure an accurate reporting of Williams jurisdictional assets to the Commission, I respectfully submit this request for a time extension and await your response.

Thank you,

Eric Busenburg
