Re: **PECO Default Service Program and Mitigation Plan  
Docket No. P-2008-2062739; PECO List of Customers  
Receiving a CAP Credit in Excess of the Applicable  
Maximum CAP Benefit Amount**

Dear Secretary Chiavetta:

In Paragraph 74 of the Commission-approved settlement in the above-noted proceeding (the "DSP Settlement"), PECO agreed to provide the following information:

PECO will generate a list by March 31 of each year identifying those Customer Assistance Program (CAP) customers that individually received benefits in the prior calendar year greater than the then-applicable maximum CAP benefit amount, as set forth at 52 Pa. Code § 69.265(3)(v), as that amount may be revised by the Commission from time-to-time. The list will include the customer's usage, discount level, and CAP tier.

In 2010, the Commission approved certain changes to the applicable maximum CAP benefit amount as applied to PECO. Specifically, in the Settlement of PECO's Electric Base Rate Case Proceeding (R-2010-2161575), Exhibit 4, paragraph 2, the parties agreed, and the Commission approved, an approach which PECO would escalate the maximum CAP benefit amount for its electric CAP rate to reflect changes in the Consumer Price Index after August 30, 2007. A similar arrangement was approved in PECO's Gas Base Rate Proceeding (R-2010-2161592).

Consequently, the maximum CAP benefit amounts for use in 2012 for the PECO CAP rate have changed as follows:

	2012	2011
Electric Rate	\$778	\$757
Electric Rate RH	\$2,001	\$1,947
Gas	\$946	\$1,022

The Gas maximum CAP benefit is lower than the previous year because the Purchased Gas Costs is lower than in 2011. As per the Gas Rate Case Settlement, PECO has agreed to the following changes to the Gas maximum CAP benefit calculation.

On January, 2011, PECO will establish a "PGC Pricing Index" set at the nominal level of 100 to reflect PECO's residential PGC rate as of that date. As each PGC proceeding is completed and new PGC rates are approved by the Commission, PECO shall adjust the PGC Pricing Index to reflect any percentage increase or decrease in purchased gas costs as compared to the initial PGC Pricing Index of 100. This adjusted level shall then constitute the new PGC Pricing Index. The Maximum Gas CAP Credit Factor shall then be adjusted, on a proportional basis, to reflect changes to the PGC Pricing Index.

PECO has generated the required 2012 list using those values for maximum CAP benefit amounts. In 2012, there were a total of 25,676 PECO CAP accounts that met this criterion. This represents a 4,358 decrease from the 2011 total of 30,034. The following table provides the total number of accounts by rate designation for the 2012 calendar year that individually received benefits greater than the applicable maximum CAP benefit amount.

CAP Tier	Gas	Electric Non-Heating	Electric Heating
CAP A - 0-25% FPL	0	37	3
CAP B - 0-25% FPL	104	5,768	0
CAP C - 26-50% FPL	124	8,642	0
CAP D - 51-75% FPL	0	6,818	0
CAP D1 - 76-100% FPL	0	4,137	0
CAP E - 101-125% FPL	0	42	0
CAP E1 - 126-150% FPL	0	1	0
<b>Total</b>	<b>228</b>	<b>25,445</b>	<b>3</b>
