<b>v.</b>	:	<b>DOCKET NO. C-2013-2356606</b>
	:	
<b>PECO ENERGY COMPANY</b>	:	
<b>Respondent</b>	:	

---

**PRELIMINARY OBJECTION OF RESPONDENT,  
PECO ENERGY COMPANY**

Respondent, PECO Energy Company (“PECO Energy”), pursuant to 52 Pa. Code § 5.101(a)(4) respectfully petitions this Honorable Commission to dismiss the instant Complaint as legally insufficient.

1. On April 8, 2013, PECO Energy was served with a formal complaint filed by Jeff Morgan (hereafter “Complainant”). A copy of the Complaint is attached hereto as Exhibit “1”.

2. In his Complaint, the Complainant ticked the box “Other” in Section 4A of his formal complaint and wrote “No Smart Meter”, concerning his allegations. See Exhibit “1”.

3. Attached to the Complaint is a letter dated March 18, 2013, addressed to the Pennsylvania Public Utility Commission. In the letter, the Complainant states as the basis of his complaint: “I do not want your smart meters.” See Exhibit “1”.

4. In his letter, the Complainant additionally states “Keep your ‘smart’ meters off my house so they don’t burn it down or some other crazy thing. Mind your own business.” See Exhibit “1”.

5. In Section 5 of the formal complaint, the Complainant requests the following for relief:

Leave meter alone. I do not want nor do I need the PUC or PECO to understand or determine anything related to fractional energy consumption at my house. They are dangerous. (The meters). PUC nor PECO is willing to assume liability. Let me pay my monthly bill and stay away from micro managing or analysing (sic) my life.

See Exhibit "1".

6. In essence, the Complainant is requesting to "opt out" of smart meter installation at his home.

7. Pursuant to 52 Pa. Code § 5.101, preliminary objections may be filed against a complaint and dismissed for legal insufficiency. 52 Pa. Code § 5.101(a)(4).

8. Commission procedure regarding the disposition of preliminary objections is similar to that utilized in Pennsylvania civil procedure. Equitable Small Transportation Intervenors. v. Equitable Gas Co., 1994 Pa.PUC LEXIS 69, Docket No. C-00935435 (July 18, 1994).

9. In deciding preliminary objections, the Public Utility Commission must determine, based on the factual pleadings of the petitioner, if relief or recovery is possible. Roc v. Flaherty, 527 A.2d 211 (Pa. Cmwlth 1985).

10. A complaint must be able to recover under the law to survive a preliminary objection. Milliner v. Enck, 709 A.2d 417, 418 (Pa. Super. Ct. 1998) ("preliminary objection should be sustained only where it appears with certainty that, upon the facts averred, the law will not allow the plaintiff to recover").

11. All of the non-moving party's averments must be taken as true for the sake of deciding the preliminary objection. County of Allegheny v. Commw. of Pa., 490 A.2d 402 (Pa. 1985).

12. The court does not, however, need to accept, "unwarranted inferences from facts, argumentative allegations, or expressions of opinions." Feingold v. McNulty, 2009 Phila. Ct. Com. Pl LEXIS 167, \*3.

13. Section 703 of the Public Utility Code, 66 Pa. C.S.A. § 703(b) provides that the Commission may dismiss any complaint without a hearing if, in its opinion, a hearing is not necessary to the public interest.

14. A hearing is required only when there is a disputed question of fact, and is not required to resolve questions of law. Dee-Dee Cab, Inc. v. Pa.Pub. Util. Comm'n, 817 A.2<sup>nd</sup> 593 (Pa.Commw. Ct. 2003), petition for allowance of appeal denied, 836 A.2d 123 (Pa. 2003).

15. Here, there are no genuine issues of fact and PECO Energy is entitled to judgment as a matter of law with respect to all of the allegations in the Complaint.

**I. Legal Insufficiency – Prior Commission Approval of Smart Meter Installation**

16. The Complainant has requested that he be permitted to "opt out" of the smart meter installation at his residence. PECO Energy's Smart Meter installation plan was approved by the Pennsylvania Utility Commission on May 6, 2010, as a part of the Smart Meter Technology Procurement and Installation Plan, ("Smart Meter/Smart Grid Plan") at docket number M-2009-2123944.

17. By way of background, Governor Edward Rendell signed Act 129 of 2008 into law on October 15, 2008. The Act took effect 30 days thereafter on November 14, 2008, and

amended Section 2807 of the Public Utility Code. Among other things, the Act specifically directed that electric distribution companies (such as PECO Energy) with more than 100,000 customers file smart meter technology procurement and installation plans with the Commission for approval. See 66 Pa. C.S. § 2807(f). The statute does not provide customers with an option to “opt out” of smart meter installation.

18. On June 18, 2009, the Commission adopted a Smart Meter Procurement and Installation Implementation Order (“Implementation Order”) to establish the standards each plan must meet and to provide guidance on the procedures to be followed for submittal, review and approval of all aspects of each smart meter plan. See Smart Meter Procurement and Installation Implementation Order, entered on June 24, 2009, at Docket No. M-2009-2092655.

19. Specifically, the Commission’s Implementation Order states:

Act 129 requires EDCs to furnish smart meter technology (1) upon request from a customer that agrees to pay the cost of the smart meter at the time of the request, (2) in new building construction, and (3) in accordance with a depreciation schedule not to exceed 15 years. 66 Pa.C.S. § 2807(f)(2).

\*\*\*\*\*

The Commission believes that it was the intent of the General Assembly to require all covered EDCs to deploy smart meters system-wide when it included a requirement for smart meter deployment “in accordance with a depreciation schedule not to exceed 15 years.”

**THEREFORE,  
IT IS ORDERED:**

1. That the Commission establishes specific smart meter technology minimum capabilities and procedures for submittal, review and approval of all aspects of each smart meter plan to include cost recovery.

2. That electric distribution companies with greater than 100,000 customers adhere to the guidelines for smart meter technology procurement and installation identified in this Implementation Order.

3. That the Director of Operations convene a stakeholder meeting no later than July 17, 2009, to discuss issues related to the costs and benefits associated with the Commission imposed smart meter capability requirements.

4. That all electric distribution companies that are required to file a smart meter technology procurement and installation plan file such a plan consistent with the directives contained in this order by August 14, 2009.

See id.

20. The Commission's Order does not have a provision for customers to "opt out" of the smart meter installation.

21. Through its Implementation Order and policies, the Commission has approved the smart meter implementation process required by Act 129.

22. Indeed, Pennsylvania PUC Chairman, Robert F. Powelson stated:

Act 129 of 2008 has really paved the way for the rollout of smart meters, also referred to as Advanced Metering Infrastructure (AMI), and the implementation of Act 129 continues to benefit Pennsylvania customers. As I see it, smart meter technology is a "win-win" situation for the Commonwealth – both electricity customers and electricity providers alike reap the benefits of advanced meters.

See PaPUC Chairman Powelson on Smart Meters and Pennsylvania's Energy Future at <http://www.smartgridlegalnews.com/interviews/papuc-chairman-powelson-on-smart-meters-and-pennsylvanias-energy-future/>

23. On August 14, 2009, PECO Energy filed with the Commission its Petition of PECO Energy Company for Approval of its Smart Meter/Smart Grid Plan.

24. Amongst other things, PECO Energy's Petition requested that the Commission approve the deployment of up to 600,000 smart meters. See PECO Energy's Smart Meter/Smart Grid Petition.

25. As a part of PECO Energy's meter deployment plan, the company committed to deploy 600,000 meters by March 2013, upon receiving American Recovery and Reinvestment Act funding from the Department of Energy. See id.

26. PECO Energy's Implementation plan does not give customers the option to "opt out" of smart meter installation.

27. By Order entered May 6, 2010 at Docket No. M-2009-2123944, the Commission approved PECO Energy's Smart Meter/Smart Grid Plan.

28. The Commission's Order approving PECO Energy's plan does not provide an "opt out" provision.

29. In conjunction with the Commission's Implementation Order; the Commission-approved Smart Meter/Smart Grid Plan and continuing compliance with Act 129, PECO Energy has deployed over 194,000 Advanced Metering Infrastructure ("AMI") meters in customer's homes and businesses.

30. Act 129, the Commission's Implementation Order; and PECO Energy's Commission-approved Smart Meter/Smart Grid Plan do not provide customers the ability to "opt out" of having a smart meter installed in their homes or businesses. See 66 Pa. C.S. § 2807(f). See also Smart Meter Procurement and Installation Implementation Order, at Docket No. M-2009-2092655. See PECO Energy's Smart Meter/Smart Grid Plan at docket number M-2009-2123944.

31. The absence of an "opt out" provision in the existing statute; Implementation Order; and Smart Meter/Smart Grid Plan is underscored by a recent bill introduced at the General Assembly.

32. House Bill 2188, which was introduced on February 8, 2012, seeks to change the existing law by adding a “opt out” provision. Specifically, House Bill 2188 reads as follows:

*Section 2807(f) of Title 66 of the Pennsylvania Consolidated Statutes is amended by adding a clause to read:*

*§ 2807. Duties of electric distribution companies.*

\* \* \*

*(2) Electric distribution companies shall furnish smart meter technology as follows:*

*(iii) In accordance with a depreciation schedule not to exceed 15 years.*

*(iv) Customers may request to opt out of receiving smart meter technology under subparagraph (iii) by notifying, in writing, the electric distribution company. Meters for customers who opt out will be replaced according to a useful life depreciation schedule.*

33. House Bill 2188 attempts to address individual customer concerns about the smart meter (such as the Complainant’s concerns) by allowing individual customers to “opt out” of receiving smart meter technology on the mandatory schedule established by Act 129.

34. The “opt out” provision; however, has not been scheduled for a vote by the General Assembly, and the ability to opt out of smart meter installation is not currently permissible under the law.

35. Accordingly, the Complainant’s formal complaint, requesting the ability to “opt out” of smart meter installation should be dismissed as a matter of law.

36. Administrative Law Judge Joel H. Cheskis reached a similar conclusion in the matter Maria Povacz v. PECO Energy, Docket No. C-2012-2317176 (Order entered September 28, 2012). In that case, the Complainant, Maria Povacz requested to “opt out” of installation of the smart meter at her residence. Id.

37. ALJ Cheskis issued an Initial Decision wherein he determined:

To the extent that Ms. Povacz desires the ability to opt out of the smart meter installation, she should advocate for such ability before the General Assembly.....The formal Complaint process against one Electric

Distribution Company, PECO, is not the appropriate avenue for this issue to be addressed.

Id.

38. On January 24, 2013, the Commission issued a Final Order, adopting ALJ Cheskis' Initial Decision. In the Order, the Commission specifically addressed whether a PECO customer could "opt out" of meter installation at their property as follows:

There is no provision in the Code, the Commission's Regulations or Orders that allows a PECO customer to "opt out" of smart meter installation, as the Complainant desires to do. Accordingly, unless and until House Bill 2188, *supra*, passes the General Assembly, or some other provision is put in place that specifically allows customers to opt out of smart meter installation, PECO has not violated any provision of the Code, any Commission Order or Regulation or any Commission-approved Company tariff by prohibiting the Complainant from opting out.

See Maria Povacz v. PECO Energy, Docket No. C-2012-2317176 (Order adopted January 24, 2013).

39. The PUC precedent for formal complaints filed against PECO Energy in similar cases, requesting smart meter "opt out" have been dismissed on Preliminary Objection as a matter of law. See e.g. Theresa Gavin v. PECO Energy, Docket No. C-2012-2325258 (Order entered January 24, 2013).

40. Like the formal complaints filed in the Maria Povacz and Theresa Gavin matters, objecting to the installation of the smart meter and requesting an "opt out", this case should be dismissed as a matter of law.

41. The Complainant's formal complaint alleges that he does not want the meter installed because of his safety and privacy concerns.

42. Assuming that everything the Complainant alleges in his Complaint is true, PECO Energy is operating under the basis of Act 129 and the specific direction given to the company by the legislature and the Commission through the Commission's Implementation Order.

43. The Complainant's Complaint, objecting to the installation of a smart meter at his residence, does not allege a violation of any order, law or tariff that can be the basis of any finding against PECO Energy.

44. Further, as the law currently stands, pursuant to Act 129 and the Commission's Implementation Order, customers do not have the ability to "opt out" of smart meter installation.

45. Because PECO Energy's smart meters are being deployed in compliance with the Commission-approved Smart Meter/Smart Grid Plan, and the law does not provide for the Complainant to "opt out" of smart meter installation, there is no legal basis for the Complainant's Complaint.

46. Therefore, the Complainant is not entitled to relief under the law.

47. For the reasons set forth above, the Complainant's Complaint should be dismissed as a matter of law.

**REQUEST FOR RELIEF**

WHEREFORE, for the reasons set forth above, PECO Energy Company respectfully requests that your Honorable Commission summarily dismiss the Complainant's formal complaint, and all issues which were raised in the Complaint.

Respectfully submitted,

---

**RE: Jeff Morgan v. PECO Energy Company  
PUC Docket No.: C-2013-2356606**

Dear Mr. Morgan:

Enclosed is a copy of PECO Energy Company's response to the formal complaint filed in the above-referenced docket. The law requires PECO Energy to file an answer to your Public Utility Commission complaint. Keep these papers for your records. This is not a decision on your complaint. PECO's response may include a New Matter, Motion or Preliminary Objection. Please note that if you do not respond to a New Matter, Motion, or Preliminary Objection an unfavorable decision may be rendered against you. Responses to New Matters and Motions must be filed within 20 days. Responses to Preliminary Objections must be filed within 10 days. If there is no New Matter, Motion or Preliminary Objection included, no response is required.

Soon, the Public Utility Commission will schedule either a settlement conference or a hearing on your complaint. The Commission will let you know by mail whether there will be a conference or a hearing and will include instructions on what to do next. If the matter is set for hearing, the notice will provide you with information about the date, time and place of the hearing. If we are unable to resolve your complaint and have to proceed with a hearing, a judge will be at the hearing and will decide your complaint. You must call the Public Utility Commission if you have any questions about the hearing or if you cannot attend the hearing.

Thank you for your time and attention on this matter.

Very truly yours,

**Note:** If your complaint is only about removing or modifying a municipal lien filed by the City of Philadelphia, the Public Utility Commission (PUC) cannot address it. Only local courts in Philadelphia County can address this type of complaint. The PUC can address a complaint about service or incorrect billing even if that amount is subject to a lien.

In addition, the PUC generally does not handle complaints about cell phone or Internet service, but may be able to resolve a dispute regarding voice communications over the Internet (including the inability to make voice 911/E911 emergency calls) or concerns about high-speed access to Internet service.

6. Requested Relief

How do you want your complaint to be resolved? Explain what you want the PUC to order the utility or company to do. Use additional paper if you need more space.

Leave meter Alom. I do not want  
nor do I need the PUC or PECO to  
understand or determine any thing related to  
fractional energy consumption at my house.

They are dangerous. (The meters)  
PUC nor PECO is willing to assume  
liability.

Let me pay my monthly b'l and  
stay away from micro managing or  
analysing my life.

**Note:** The PUC can decide that a customer was not billed correctly and can order billing refunds. The PUC can also fine a utility or company for not following rules and can order a utility or company to correct a problem with your service. Under state law, the PUC cannot decide whether a utility or company should pay customers for loss or damages. Damage claims may be sought in an appropriate civil court.

6. **Protection from Abuse**

Has a court granted a "Protection from Abuse" order that is currently in effect for your personal safety or welfare? The PUC needs this information to properly process your complaint so that your identity is not made public.

Note: You must answer this question if your complaint is against a natural gas distribution utility, an electric distribution utility or a water distribution utility AND your complaint is about a problem involving billing, a request to receive service, a security deposit request, termination of service or a request for a payment agreement.

Has a court granted a "Protection from Abuse" order for your personal safety or welfare?

YES   
NO

If your answer to the above question is "yes," attach a copy of the current Protection for Abuse order to this Formal Complaint form.

7. **Prior Utility Contact**

a. Is this an appeal from a decision of the PUC's Bureau of Consumer Services (BCS)?

YES   
NO

Note: If you answered yes, move to Section 8. No further contact with the utility or company is required. If you answered no, answer the question in Section 7 b. and answer the question in Section 7 c. if relevant.

b. If this is not an appeal from a BCS decision, have you spoken to a utility or company representative about this complaint?

YES   
NO

Note: You must contact the utility first if (1) you are a residential customer, (2) your complaint is against a natural gas distribution utility, an electric distribution utility or a water utility AND (3) your complaint is about a billing problem, a service problem, a termination of service problem, or a request for a payment agreement.

**Dear PUC,**

**This isn't the first time you have heard this. I do not want your smart meters. I do not want either the PUC or PECO to manage or log my individual interval use of electricity at my home. I pay my bill and that is all you should care about. What time I get up in the morning, use my shower, pop down some toast or make coffee is none of your business. There is zero justification for installation of this detailing a meter. You are appearing like a bunch of control freaks.**

**If it were simply a remote billing at the end of the month deal then that would be one thing. This incessant need for the government and regulators such as the PUC to micromanage and micro inform on everyone and everything I do is an invasion of my individual privacy.**

**Worry about the sorry state of your distribution grid. Worry about the sorry state of responding to outages and no preventative maintenance and if you insist then at least take responsibility for the product you sell, like we have to do in the real world. That means products liability insurance to account for damages done by your product and or system. I have already lost thousands on outages and re-starts over the years and even though winning the claim I was only reimbursed for a minimally modest amount due to the PUC protecting the supplier of energy and limiting awards. This is not right. The energy suppliers, like all business should be responsible for the damage they create with their product.**

**Keep your "smart" meters off my house so they don't burn it down or some other crazy thing. Mind your own business.**
