

May,29 2013

Dear Your Honor,

I respectfully request to enter this to the exhibits you have already received. During the hearing attorneys for Peco Energy stated,that the bill coming is a higher bill due to higher useage. When useage in the house has not changed or daily routine to maintain a low bill as possible. If you take a look at the electric and budget bill amount on page 1 it states \$86.88, lower than any other bill and they're requesting \$263.00 which is on the right side from the \$86.88 plus \$16.67 which is no where on the bill. Now if you turn to page2 of the bill,look at {Your useage Profile below on the bill}. You will be able to see current month useage and last month useage. Which is lower than last month useage, but the bill is extremely higher. My question is, where is all this money coming from and where is it going to if the bill on page1 remains \$1,225.12? There still hasn't been any change or adjustments to the account. I paid Peco Energy \$3,019.88 since Jan.2012 til May2013. Your Honor from this I hope it can give you some clarification on what they are doing and help with your judgement.

Respectfully Submitted & Thank You,

Moses Hoggard
