Re: Supplement No. 81 to Tariff Electric – Pa PUC No. 4 effective July 1, 2013
Updating CAP discount rates and maximum discounts provided under terms of the
Settlement at Docket No. R-2010-2161575 (Section D)

Dear Secretary Chiavetta:

Pursuant to Commission Opinion and Order at Docket No. R-2010-2161575, PECO Energy Company is herewith filing Supplement No. 81 to Tariff Electric Pa. P.U.C. No. 4, bearing an effective date of July 1, 2013, in compliance with the above Order.

The specific purpose of the filing addresses the Electric Customer Assistance Program (CAP) approved at Docket No. R-2010-2161575 which requires that the discount factors be updated July 1 of each year. In support of Supplement No. 81 we are providing the following Attachments:

Attachment 1 – Summary of electric CAP discounts and maximum discounts by CAP tier.
Attachment 2 – APPRISE Electric Affordability Study
Attachment 3 – Electric CAP discount calculation using APPRISE Electric Affordability Study
Attachment 4 – Revised Electric CAP Tariff

If you have any questions, please do not hesitate to call me.

Sincerely,

cc: Certificate of Service

PENNSYLVANIA PUBLIC UTILITY COMMISSION

PECO Energy Company

FROM: Jackie Berger and Ferit Ucar
SUBJECT: PECO Electric Affordability Analysis

PECO has asked APPRISE to update the analysis of the electric burden for CAP customers compared to the PUC's targeted energy burden for 2013 using the rates that will be in effect as of July 1, 2013. This memo provides a summary of the analyses that we conducted.

All analyses in this memo were conducted using 2012 electric usage data for customers who were enrolled in PECO's CAP in December 2012. The usage data were multiplied by current electric rates provided by PECO. Energy burden was obtained by using the following formula:

$$(\text{annual electric usage}) * (\text{2013 PECO electric prices}) / (\text{annual household income})$$

Table 1 displays the electric rates provided by PECO that are used in the analyses included in this memo. The Non CAP rates are used in the analyses to demonstrate the discount that is needed off the full electric bill.

Table 1
PECO 2013 Electric Rates, as of July 1, 2013

	Rate R	Rate RH – Electric Heat	
Fixed Distribution Service Charge	\$7.09	\$7.09	
		Winter	Summer
Transmission Charge	\$ 0.0075	\$ 0.0075	\$ 0.0075
Variable Distribution Service Charge	\$ 0.0610	\$ 0.0416	\$ 0.0610
Energy and Capacity Charge	\$ 0.0786	\$ 0.0786	\$ 0.0786
Total Cost per kWh	\$ 0.1471	\$ 0.1277	\$ 0.1471

Table 2 displays the current PUC target burden levels and the proposed target burden levels by poverty group.

Table 2
PUC Target Burden Levels

Rate R		
Poverty Level	Current PUC Electric Energy Burden Target	Proposed PUC Electric Energy Burden Target
<=25%	2%-5%	4%
26% - 50%	2%-5%	4%
51% - 75%	4%-6%	4%
76% - 100%	4%-6%	4%
101% - 125%	6%-7%	4%
126% - 150%	6%-7%	4%
Rate RH		
Poverty Level	Current PUC Electric Energy Burden Target	Proposed PUC Electric Energy Burden Target
<=25%	7%-13%	10%
26% - 50%	7%-13%	10%
51% - 75%	11%-16%	10%
76% - 100%	11%-16%	10%
101% - 125%	15%-17%	10%
126% - 150%	15%-17%	10%

Table 3 displays the number of electric CAP customers as of December 2012 by poverty group. The table shows that there were approximately 137,000 electric CAP customers. Approximately 112,000 of these customers were included in the analyses that are summarized in the following tables, providing for a very robust analysis of customers' need for bill assistance.

Table 3
CAP Poverty Levels

Poverty Level	Electric CAP Accounts
<=25%	16,337
26 to 50%	15,688
51 to 75%	27,809
76 to 100%	36,040
101 to 125%	22,010

Poverty Level	Electric CAP Accounts
126 to 150%	17,798
>150%	650
Missing	585
TOTAL	136,937

Table 4A displays the discount off the 2013 non-discounted electric rates needed by each poverty group to reach the PUC target. The highest value in the energy burden target range is used as the target. For example, the target burden range is 7%-13% for RH customers with income at or below 50 percent of the poverty level. Tables 4A through Table 5 show the discount off the 2013 non-discounted electric rates needed to reach a 13 percent burden for that group.

The percentage shown is the percentage discount off the total monthly bill that is needed to achieve either the targeted PUC burden level or the targeted PUC minimum payment. Minimum payments of \$12 per month for non-heating and \$30 per month for heating customers are included in these calculations. The table shows that 21 percent of rate R (non-heating) customers with income below 25 percent of the poverty level need a discount of 90 percent or more to reach the current PUC targeted energy burden level and 64 percent of these households need a discount of 75 percent to 90 percent to reach their targeted energy burden. The table shows that 96 percent of rate RH customers with income between 126 and 150 percent of the poverty level do not need a discount to reach their targeted energy burden level.

Table 5 separates out the customers that would receive the minimum payment amount instead of the discount, because the discount would take them below the \$12 per month minimum payment recommended for non-heating customers or the \$30 per month minimum payment recommended for heating customers.

The table shows that 57 percent of rate R customers and 63 percent of rate RH customers with income less than or equal to 25 percent of the poverty level would need the minimum payment. However, there are no customers in the other income groups that would need the minimum payment.

Table 6 displays the discount off the 2013 non-discounted electric rates needed by each poverty group to reach the proposed PUC energy burden targets. The percentage shown is the

percentage discount off the total monthly bill that is needed to achieve either the targeted PUC burden level or the targeted PUC minimum payment. Minimum payments of \$12 per month for non-heating and \$30 per month for heating customers are included in these calculations. The table shows that 26 percent of rate R customers with income at or below 25 percent of the poverty level would need a discount of 90 percent or more and 64 percent would need a discount of 75 percent to 90 percent to reach the targeted energy burden level. The table shows that 76 percent of rate RH customers with income between 126 and 150 percent of the poverty level would not need a discount to reach the targeted energy burden level.

Table 6
Projected PECO Electric Discount Needed
Off 2013 Full Electric Rates
Proposed PUC Energy Burden Targets

Rate R (Minimum is \$12/Month)							
Targeted Energy Burden is 4%							
Poverty Level	Percent of Customers With Each Level of Discount Off Full 2013 Rate Needed to Achieve PUC Target						
	0%	<10%	10%-25%	25%-50%	50%-75%	75%-90%	90%+
<=25%	0%	0%	0%	1%	9%	64%	26%
26% - 50%	1%	0%	1%	4%	36%	54%	5%

Customer Assistance Program (CAP) Rider

AVAILABILITY:

To payment-troubled customers who are currently served under or otherwise qualify for Rate R, or RH (excluding multiple dwelling unit buildings consisting of two to five dwelling units). Customers must apply for the rates contained in this rider and must demonstrate annual household gross income at or below 150% of the Federal Poverty guidelines. In addition, these customers will not be able to obtain Competitive Energy Supply.

Based on the applicable level of income and other criteria, the following CAP Rate categories (A through E1) apply:

CAP A - PECO Cares Program: Customers with annual household gross incomes at or below 25% of the Federal poverty income guidelines with documented extenuating circumstances will be eligible for CAP A which provides for Residential Rate R customers a nominal bundled rate of \$12/month for all usage up to 1,000 KWH; for usage above 1,000 KWH the CAP D rate structure will apply. For Residential Heating customers Rate RH, CAP A provides a nominal bundled rate of \$30/month for all usage up to 2,000 KWH in the Winter¹/1,000 KWH in the Summer¹; for usage above 2,000/1,000 KWH the CAP D rate structure will apply.

Extenuating circumstances shall include those individuals who demonstrate an inability to pay the billed rate of CAP B as a result of unique circumstances such as: Health related matters:

- o Injury or illness
- o High medical bills
- o Medically related usage
- o Death in the family
- Sudden loss of employment
- Households that include at risk individuals such as:
 - o Children below 8 years of age
 - o Disabled persons
 - o Infirm elderly
- Inability to maintain at least two CAP B payment arrangements
- High usage related to shelter conditions which are not treatable by LIURP

¹ Winter refers to the 9 months (October – June); Summer refers to the 3 peak usage summer months (July-September).

Program Provisions: The CAP A Rate is limited to 7,500 customers and these customers will be re-certified annually. CAP A customers will be targeted to receive LIURP treatments; and they will be assigned to a PECO Cares Representative to maximize the assistance available to them. In addition, these customers will not be able to obtain Competitive Energy Supply.

Must be on Budget Billing	Yes	Yes	No	No	No	No

DISCOUNT LEVELS: The Company shall be required to modify the level of discounts set forth as part of its annual USFC filing. If the calculated discounts result in a discount greater than the level allowed by the Commission, the discount for each class will be scaled back on a prorata basis such that the total cost does not exceed the allowed level. The Company will update the maximum discounts for all CAP tiers in conjunction with the quarterly Generation Supply Adjustment filing.

CERTIFICATION/VERIFICATION Prior to enrollment in the CAP Rider, and then again every two years, customers must verify, to PECO's satisfaction, that their household income level meets the "Availability" standards set forth in this Rider. Customers being considered for the CAP Rider will be required to:

- Provide information sufficient to demonstrate to PECO their household income level.
- Waive certain privacy rights to enable PECO to effectively conduct the above certification process.
- Apply for and assign to PECO at least one energy assistance grant from the Commonwealth.
- Participate in various energy education and conservation programs facilitated by PECO.

PECO may, at its sole discretion, supplement this verification process by using data from Commonwealth or federal government programs which demonstrate the income eligibility of its customers. Such data may come from a customer's participation in, or receipt of benefits from, the Low Income Home Energy Assistance Program, Temporary Assistance for Needy Families, Food Stamps, Supplemental Security Income, and Medicaid. Information available from the Pennsylvania Department of Revenue may also be used where appropriate to expedite the process.

MINIMUM CHARGE. The minimum charge per month will be the fixed distribution charge for all customers unless otherwise noted

(C) Denotes Change
