Out of electric competition comes a pilot program.

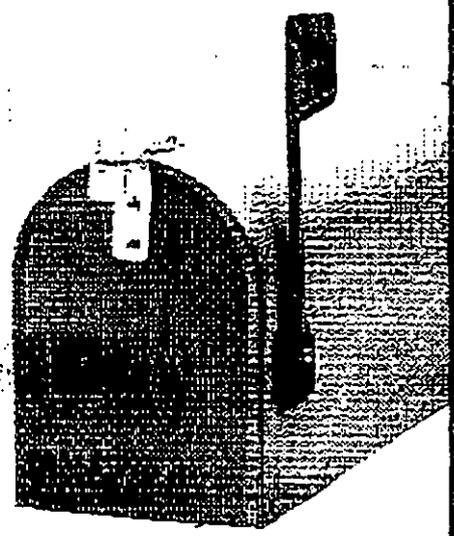

Out of that pilot program comes an opportunity to save money.

Out of your mailbox comes everything you need to know.

So check your mailbox. The future is in the mail.

PECO Energy is conducting a pilot program under the Electricity Generation Customer Choice and Competition Act. As part of the new law five percent of our customers - about 75,000 in all - will be able to choose their electric supplier this year through the pilot program. If you are selected to take part in the pilot you will save approximately 10 percent of the PECO Energy portion of your bill (transmission, distribution and transition charges). The information packet you will receive in the mail contains instructions on how to enroll in the pilot.

For more information call PECO Energy's Consumer Choice Education Center at 1-800-980-8655 or the Pennsylvania Public Utility Commission's Bureau of Consumer Services at 1-888-782-3223.
