PECO Energy Company  
Response to Filing Requirements

Schedule E-4  
Respondent: Alan B. Cohn

Q: Provide the following information:

- (a) The basis of, and the supporting documentation for, the net salvage estimate for the base year.
- (b) A detailed schedule, by month, listing the net salvage calculations (i.e., cost of removal less gross salvage = net salvage) for the last five years.
- (c) The company's definition of cost of removal and salvage.

Response:

a) Only actual salvage and removal costs are included in the base year. The Company's actual incurred salvage and removal costs is included in the depreciation reserve account.

b) Attachment E-4 provides a detailed schedule by month listing net negative salvage for the past five years.

c) The Company uses the Federal Energy Regulatory Commission's definitions for cost of removal and salvage. These definitions are as follows:

Cost of removal is the cost of demolishing, dismantling, tearing down or otherwise removing electric plant, including the cost of transportation and handling incidental thereto.

Salvage is the amount received for property retired, less any expenses incurred in connection with the sale or in preparing the property for sale; or, if retained, the amount at which the material recoverable is chargeable to materials and supplies, or other appropriate account.

PECO Energy Company  
Response to Filing Requirements

Schedule E-5  
Respondent: Alan B. Cohn

Q: Provide a comparison of the calculated annual depreciation expense amount accrual for the base year and the 12-month period immediately preceding the base year versus the book expense amount by functional group and by account, if available.

Response:

Section RC, columns Total Calc. Accrual and Current-Year Depreciation of "Resrun95.xls" and "Resrun96.xls" (Attachments E-1c and E-1b) provides the requested information. The Company's claim in this case is reflected on page D-6 and pages C-1 to C-f of Company Exhibit TPH-1.

PECO Energy Company  
Response to Filing Requirements

Schedule E-6  
Respondent: Alan B. Cohn

Q: Supply a schedule by account or by depreciable group showing the survivor curve or interim survivor curve and annual accrual rate estimated to be appropriate:

- (a) For the purpose of this filing.
- (b) Supply a comprehensive statement of major changes made in depreciation methods, procedures and techniques and the effect of the changes upon accumulated and annual depreciation, if any.

Response:

Section RB of "Resrun96.xls" (Attachment E-1b) shows the survivor curves used and the remaining life rate. The Company's method of depreciation, procedures and techniques are the same methods, procedures and techniques which were approved in the Company's R-891364 rate proceeding.

PECO Energy Company  
Response to Filing Requirements

Schedule E-7  
Respondent: Alan B. Cohn

Q: Where the retirement rate actuarial method of mortality analysis is utilized, set forth representative examples including charts depicting the observed and estimated survivor curves and a tabular presentation of the observed and estimated life tables plotted on the chart.

Response:

This information is included in Exhibit ABC-2.

PECO Energy Company  
Response to Filing Requirements

Schedule E-8  
Respondent: Alan B. Cohn

Q: Provide a description of the depreciation methods utilized in calculating annual depreciation amounts and depreciation reserves, together with a discussion of the significant factors which were considered in arriving at estimates of service life and forecast retirements by facilities, accounts or sub-accounts, as applicable.

Response:

A discussion of the above is included on pages 1-4 of Exhibit ABC-2.
