PA PUBLIC UTILITY COMMISSION  
SECRETARY'S BUREAU

Dear Secretary McNulty:

Section C.1.a. of the Settlement Agreement in PPL Electric Utilities Corporation's ("PPL Electric") electric restructuring proceeding requires PPL Electric to transfer 20% of its residential service customers to a provider of last resort other than PPL Electric annually beginning January 1, 2002. The purpose of this letter is to inform the Pennsylvania Public Utility Commission (the "Commission") of PPL Electric's ongoing plans to implement the second year of this provision of the Settlement Agreement. Specifically, PPL Electric has developed the following schedule for implementing Competitive Default Service ("CDS") in its service territory for calendar year 2003. This schedule may be subject to minor modifications as it is implemented.

- |                                 |  |
|---------------------------------|--|
| September 23, 2002              | Send advanced notification to all Electric Generation Suppliers licensed in Pennsylvania and provide other public notice |
| September 24 – October 10, 2002 | Supply copies of a Request for Proposal ("RFP") to all interested parties and answer questions regarding the RFP         |
| October 10, 2002                | Due date for all CDS Bids (in electronic format)   |
| October 15, 2002                | Notify the qualified winning bidder  |
| October 15, 2002                | Transmit customers list (20% randomly selected) to the CDS supplier  |
| October 15-21, 2002             | Negotiate CDS Agreement with winning bidder  |

115

|                   |   |
|-------------------|---|
| October 21, 2002  | Execute final CDS Agreement for 2003  |
| December 11, 2002 | CDS supplier begins to send enrollments to PPL Electric                               |
| January 2003      | Selected customers are transferred to CDS as of their January 2002 meter reading date |

It is PPL Electric's desire to implement a successful CDS program pursuant to the terms of its Settlement Agreement. Therefore, during 2003, PPL Electric has decided to retain "customer care functions" for CDS customers. These functions include billing and collections, customer dispute and inquiry and universal service. This decision was based on PPL Electric's desire to provide the best possible chance for success of the CDS program. Based on its knowledge of the market, PPL Electric believes that EGSs are not, at this time, interested or able to provide the customer care functions on an economic basis in 2003. In PPL Electric's view, requiring the CDS supplier to offer the customer care functions would eliminate any possibility of a successful CDS program in 2003. PPL Electric will continue to evaluate this issue and may include customer care functions in future CDS proposals.

As shown below, I have sent a copy of this letter to the Office of Consumer Advocate, the Office of Small Business Advocate and the Commission's Office of Trial Staff.

If you have any questions regarding PPL Electric's CDS program, please call me.

Very truly yours,

Paul E. Russell
