F. Changes and Substitutions

Except as provided for equipment and systems subject to F.C.C. Part 68 Regulations at 47 C.F.R. In case of any such substitution, change or rearrangement, the transmission parameters will be within the ranges set forth in Sections 4 and 5 following. The Company shall not be responsible if any such substitution, change or rearrangement renders any Customer furnished services obsolete or requires modification or alteration thereof or otherwise affects their use or performance.

If such substitution, change or rearrangement materially affects the operating characteristics of the facility, the Company will provide reasonable notification to the Customer in writing. Reasonable time will be allowed for any redesign and implementation required by the change in operating characteristics. The Company will work cooperatively with the Customer to determine reasonable notification procedures.

With some emergency or unplanned service-affecting conditions, such as an outage resulting from cable damage, notification to the Customer may not be possible.

I. Coordination with Respect to Network Contingencies

The Company intends to work cooperatively with the Customer to develop network contingency plans in order to maintain maximum network capability following natural or man-made disasters which affect telecommunications services, subject to the Restoration Priority requirements of Part 64 of the F.C.C.'s Rules.

In case of such temporary discontinuance, the Customer will be promptly notified and afforded the opportunity to correct the condition which gave rise to the temporary discontinuance. During such period of temporary discontinuance, credit allowance for service interruptions, as set forth in 2.IV.D following, is not applicable.

A. Damages

The Customer shall reimburse the Company for damages to the Company facilities utilized to provide services under this tariff caused by the negligence or willful act of the Customer, or resulting from improper use of the Company facilities, or due to malfunction of any facilities or equipment provided for or by the Customer. Nothing in the foregoing provision shall be interpreted to hold one Customer liable for another Customer's actions. The Company will, upon reimbursement for damages, cooperate with the Customer in prosecuting a claim against the person causing such damage and the Customer shall be subrogated to the right of recovery by the Company for the damages to the extent of such payment.

B. Ownership or Control of Facilities

Facilities owned or leased by the Company and utilized by it to provide service under the provisions of this tariff shall remain the property of the Company. Such facilities shall be returned to the Company by the Customer in as good a condition as reasonable wear will permit.

Subject to the provisions of 1.VII preceding, the Customer shall be solely responsible, at its own expense, for the overall design of its services and for any redesigning or rearrangement of its services which may be required because of changes in facilities, operations or procedures of the Company, minimum protection criteria or operating or maintenance characteristics of the facilities.

F. Claims and Demands for Damages

- (1) With respect to claims of patent infringement made by third persons, the Customer shall defend, indemnify, protect, and save harmless the Company from and against all claims arising out of the combining with, or use in connection with, the services provided under this tariff, or any circuit, apparatus, system or method provided by the Customer.

IV. Payment Arrangements and Credit Allowances

A. Payment of Rates, Charges and Deposits

- (1) The Company will, in order to safeguard its interests, require a Customer which has a proven history of late payments to the Company or which does not have established credit (except for a Customer which is a successor of a company which has established credit and has no history of late payments to the Company), to make a deposit prior to or at any time after the provision of a service to the Customer. The deposit will be held by the Company as guarantee of the payment of rates and charges. Such deposit may not exceed the actual or estimated rates and charges for the service for a two-month period. The fact that a deposit has been made in no way relieves the Customer from complying with the Company's regulations as to the prompt payment of bills.
- (2) Customers may satisfy deposit requirements as follows: in cash, certified funds, money orders, acceptable bank letter of credit, acceptable third party guarantee, or other forms of security acceptable to the company.
- (3) Deposits will be refunded to the Customer, along with accrued interest when one of the following conditions is met:

Service has not been suspended for non-payment with the previous twelve (12) months.

When service has been terminated or disconnected, the Company will deduct any and all unpaid amounts from the deposit and the difference will be refunded. Deposits held for Customers will accrue interest at the rate specified by the Commission, and will be credited or paid to the Customer upon the termination of service.

A deposit will accrue interest annually at the rate of six percent (6%) pursuant to 52 Pa. Code 53.82(4).

An interruption period starts when an inoperative service is reported to the Company, or when the Company becomes aware of the service interruption, and ends when the service is operative.

Interruptions in service, which are not due to the negligence of, or noncompliance with the provisions of this tariff by the Customer, or the operation or malfunction of the facilities, power or equipment provided by the Customer, will be credited to the Customer as set forth below for the part of the service that the interruption affects. A credit allowance will be made when an interruption occurs because of a failure of any component furnished by the Company under this tariff as required by the 52 Pa. Code §64.52.

The Customer shall be credited for an interruption of eight (8) hours or more at the rate of 1/30 of any applicable monthly rates.

SECTION 5 - PRIVATE LINE SERVICES

I. Integrated Services Digital Network (ISDN)

A. Description of Service

- (1) Integrated Services Digital Network (ISDN) is a digital standard that provides an integrated voice or data capability to the Customer premises facility, utilizing the public switched telephone network. ISDN delivers voice, data and video by two standard methods of access. Primary Rate Interface (PRI) Service and Basic Rate Interface Service (BRS). The Company will only provide Primary Rate Interface service.
- (2) PRI service has a capacity of 1.544 megabits per second (Mbps) and has multiple channels: 23 B-channels, and one D-Channel, and is also known as 23 B+D access. The 64-Kbps B-channels carry user information such as voice calls, circuit-switched data or video while the D-channel carries the call-control signaling information. The B-channels may be provisioned on the same facility as the D-channel or on other PRI T1 facilities. Each B-channel is dedicated to inward, outward or 2-way traffic. The Customer may use CPE to bond together 64 Kbps B-channels for the transmission of circuit-switched data or video.
- (3) Directory Numbers: Primary Directory Number - A single telephone directory number is provided with each PRI service ordered.
- (4) Directory Listings: One primary directory listing is provided per PRI service per Customer.
- (5) Emergency 911 services will be provided for all voice calls on PRI service.

B. Protection of the Network

- (1) PRI service is furnished subject to central office availability and capacity, the availability of outside plant facilities, and the necessary central office billing capabilities.

In the event Customer equipment meets required specifications, but causes interference with current or future services, the Company reserves the right to notify the Customer and modify the service to eliminate the interference or disconnect the service. In such case, termination charges do not apply.

- (2) Upon notification by the Company that unauthorized transmissions are due to Customer equipment or facilities, the Customer or Customer's authorized agent will correct the situation on an expeditious basis or service will be disconnected by the Company to protect the network. THE COMPANY DISCLAIMS LIABILITY FOR LOSSES WHICH MIGHT BE INCURRED AS A RESULT OF DISCONNECTING THE SERVICE AND DISCLAIMS ANY AND ALL IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. Should PRI service capability fail due to inside wiring not owned by the Company, or CPE, or power failure, the responsibility for failure shall be solely that of the Customer and the Company shall not be liable.
- (4) If PRI service should experience interruption, disconnection, error, performance failure, or some other out-of-service condition and last for more than 8 consecutive hours after the Customer gives the Company notice of such out-of-service condition, except for problems caused by the Customer's action, inside wiring, interface, Customer premise power outage, and/or CPE, an out-of-service credit will be applied to the Customer's bill. E. Service Arrangements

(1) Voice/Data PRI (with DID)

A Voice/Data PRI with Direct Inward Dialing (DID) have 3 elements: the T-1, the Service Configuration, and a 2-way trunk/DID. This service configuration provides 23 B-channels and 1 D-channel. The B-channels carry user information such as voice calls, circuit-switched data or video. The D-channel handles signaling information.

(2) Data PRI 23B+D

This service configuration provides for 23 B-channels and 1 D-channel. The B-channels carry user information such as voice calls, circuit-switched data, or video while the D-channel handles signaling information.

(3) Data PRI 24B

This service configuration provides for 24 channels. The B-channels carry user information such as voice calls, circuit-switched data, or video. The signaling information is provided by a D-Channel on the first T1 facility.

F. Direct Inward Dialing (DID)

(1) The Company will assign line numbers for direct inward dialing in blocks of numbers. When additional numbers are required, they will be made available as soon as the Company has equipment/numbers available for this purpose. The Company does not guarantee that line numbers will be made available in all cases.

SECTION 6 - SPECIAL ARRANGEMENTS

I. Special Construction

- (4) some combination thereof.

B. Basis for Cost Computation

The costs referred to in 6.A preceding may include one or more of the following items to the extent they are applicable:

- (1) Cost installed of the facilities to be provided included estimated costs for the rearrangements of existing facilities. Cost installed includes the cost of
 - a. Equipment and materials provided or used
 - b. Engineering, labor and supervision
 - c. Transportation, and
 - d. Rights of ways;
- (2) Cost of maintenance
- (3) Depreciation on the estimated cost installed of any facilities provided, based on anticipated useful life of the facilities with an appropriate allowance for the estimated net salvage;

B. Basis for Cost Computation, (Cont'd.)

- (7) Any other identifiable costs related to the facilities provided; or
- (8) An amount for return and contingencies.

C. Termination Liability

To the extent that there is no other requirement for use by the Company, termination liability may apply for facilities specially constructed at the request of the Customer. The termination liability period is the estimated service life of the facilities provided.

The amount of the maximum termination liability is equal to the estimated amounts for: cost installed of the facilities provided including estimated cost for rearrangements of existing facilities and/or construction of new facilities as appropriate, less net salvage. Costs installed include the costs of: equipment and materials provided or used; engineering, labor, supervision, transportation, and rights of way. Other costs include: license preparation, processing; tariff preparation and processing, cost of removal and restoration, and any other related fees or identifiable costs related to specially constructed or rearranged facilities.

The applicable termination liability method for calculating the unpaid balance of a term obligation is: the sum of the amounts determined as set forth above, multiplied by a factor related to the unexpired period of liability, multiplied by the discount rate of return and contingencies. The amount determined shall be adjusted to reflect the predetermined estimated net salvage, including any reuse of the facilities provided. This product is adjusted to reflect applicable taxes.

D. Individual Case Basis (ICB) Arrangements

Arrangements will be developed on a case by case basis in response to a bona fide request from a Customer or prospective Customer to develop a competitive bid for a service offered under this tariff. Rates quoted in response to such competitive requests may be different than those specified in this tariff. ICB rates will be offered to the Customer in writing and on a non-discriminatory basis.

If the Company and a Customer enter in an ICB arrangement, the ICB arrangement may provide the Customer or Company with certain rights to terminate the arrangement. If the Customer or the Company exercises such a termination right, then upon the effective date of termination, the ICB rates will no longer apply.

II. Pennsylvania Telecommunications Relay Service (PA TRS), (Cont'd.)

A. General

The Pennsylvania Telecommunications Relay Service (PA TRS) is a relay telecommunication service for the deaf, hard of hearing, hearing and/or speech disabled population of the Commonwealth. The PA TRS is mandated by the Americans with Disabilities Act of 1990 to provide functionally equivalent telephone services that are available to other U.S. citizens, at no additional cost. The PA TRS includes both traditional relay (devices such as Teletypewriters (TTY) and Telecommunication Devices for the Deaf (TDD)) and captioned-telephone voice-carry-over relay services (captioned telephone). These relay services permit telephone communications between individuals with hearing and/or speech disabilities, who must use a TTY, TDD or captioned telephone, with individuals having normal hearing and speech. Additionally, 711 abbreviated dialing is available to access the PA TRS. The Company's switching equipment is arranged to translate the "711" calls to the assigned toll-free number, (888) 895-1197, in order to route calls to the Telecommunications Relay Service Provider, in accordance with Commission's Order entered on February 4, 2000 at Docket No. M-00900239.

B. Surcharge

In addition to the charges provided in this tariff, a surcharge will apply to all residence and business access lines served by this Company. (Access lines are those lines extending from the telephone company's central office to the end-user's premises.) This surcharge applies regardless of whether or not the access line uses the PA TRS.

- The surcharge serves as the funding vehicle for the operation of the PA TRS, Telecommunications Device Distribution Program and the Print Media Access Service Program and shall be calculated by the Pennsylvania Public Utility Commission (the Commission). The Commission shall compute the PA TRS surcharge each year and notify local exchange carriers of the surcharge amount to be applied for the twelve-month period commencing with July 1 of each year.

The Commission may revise the surcharge more frequently than annually at its discretion.

Tariff revisions will be filed whenever the Commission calculates a new surcharge amount and notifies the Company.

C. Rates

Local calls will be charged at the applicable local flat rate or local measured service rate. Toll calls will be charged at the applicable toll rate found in the selected long distance provider's rate schedule or current tariff. If the Customer has not chosen a long distance carrier the default carrier's rates will apply for the toll calls.

III. IntraLATA Toll Presubscription

- A. Toll Presubscription is a procedure whereby a Customer designates to the Telephone Company the IntraLATA and InterLATA Toll Providers, i.e., Interexchange Carriers (IXCs) which the Customer wishes to be the carriers of choice for toll calls. Such calls are automatically directed to the designated carrier(s) without the need to use carrier access codes or additional dialing to direct the calls to the designated carrier. Toll presubscription does not prevent a Customer, who has presubscribed to a toll carrier, from using carrier access codes or additional dialing to direct calls to an alternative toll carrier on a per call basis.

Each carrier will have one or more access codes assigned to it for various types of service. When an end user selects a carrier as its preferred IXC, only one access code of that carrier may be incorporated into the switching system of the Telephone Company permitting access to that carrier by the end user without dialing an access code. Should the same end user wish to use other services of the same carrier, it will be necessary for the end user to dial the necessary access code(s) to reach that carrier's other service(s).

An IXC must use Feature Group D (FGD) Switched Access Service to qualify as a presubscription toll provider unless prior arrangements have been made with or by the Telephone Company. IXCs must submit an Access Service Request (ASR) to the Telephone Company.

Selection of toll presubscription provider by an end user is subject to the terms and conditions following.

- B. At the option of the IXCs, the nonrecurring charge for a change in toll presubscription, as provided herein, may be billed to the IXCs, instead of the end user. This may involve charges resulting from end-user initial free choice Preferred Interexchange Carrier (PIC), as specified following.

SECTION 7 – MISCELLANEOUS SERVICES, (CONT'D.)

III. IntraLATA Toll Presubscription, (Cont'd.)

C. Presubscription Charge Application

- (1) End user choices for toll presubscription:
 - Designating an intraLATA and interLATA IXC(s) as primary carrier(s) thereby requiring no access code to access those IXCs' service. End users are not required to choose the same IXC for intraLATA and interLATA toll presubscription. Other nonpresubscribed IXCs are accessed by dialing 10XXX, 101XXXX, or other required codes.
 - Choosing no carrier as a primary carrier thus requiring 10XXX or 101XXXX code dialing to access all IXCs.
- (2) If a new Customer cannot decide upon presubscription IXCs, the Telephone Company may extend a 30-day period following completion of the initial service request to make a choice without charge. In the interim, the Customer will be assigned as a 'No-PIC' and must dial an access code to make toll calls.
- (3) If an IXC elects to discontinue Feature Group, the IXC is obligated to contact, in writing, all end users who have selected the canceling IXC as their preferred toll provider. The IXC must inform the end users that it is canceling its Feature Group D Service, request that the end user select a new IXC, and state that the canceling IXC will pay the PIC change charge as provided herein. The IXC must provide written notification to the Telephone Company that this activity has taken place.

Following the IXC's discontinuance of service, the Telephone Company will bill the canceling IXC the change charge for each end user that is currently designated to the IXC at the time of discontinuance.

- (4) An unauthorized PIC change is a change in the presubscribed IXC that the end user denies authorizing. PIC disputes for end users are resolved through an investigative process.

If an unauthorized change in toll presubscription occurs, the IXC making the unauthorized change will be assessed a charge for unauthorized change in presubscription as provided at the end of this section. In addition, the IXC will be assessed the applicable charge for returning the end user to the preferred IXC.

III. IntraLATA Toll Presubscription, (Cont'd.)

D. End User Charge Discrepancy

(1) When a discrepancy is determined regarding an end user's designation of a presubscription IXC, the following applies depending upon the situation described:

- A signed letter of authorization takes precedence over any order other than subsequent, direct Customer contact with the Telephone Company.
- When two or more orders are received for an end user line generated by telemarketing, the date field on the mechanized record used to transmit PIC change information will be used as the PIC authorization date. The order with the latest application date/time determines Customer choice.
- If an end user denies requesting a change in toll presubscription as submitted by an IXC, and the IXC is unable to produce a letter of authorization, signed by the end user, the IXC will be assessed all applicable change charges. The nonrecurring change charges are provided herein. The IXC will also be assessed the presubscription change charge as specified herein, which was previously billed to the end user.

(2) Verification of Orders for Telemarketing

Neither the IXC or the Telephone Company shall submit a PIC change order generated by outbound telemarketing unless and until the order has first been confirmed in accordance with the F.C.C.'s current anti-slammings practices and procedures.

III. IntraLATA Toll Presubscription, (Cont'd.)

E. PIC Switchback Option-Business/Residence

PIC Switchback is an option under which no investigation activities are performed by the Telephone Company when an end user denies requesting a change in primary toll carrier submitted by the IXCs. The IXC participating in PIC Switchback will be billed the PIC Switchback Charge, and the presubscription change charge, as specified herein, to switch the end user to the end user's previous carrier.

When the Telephone Company is contacted by an end user who denies requesting a change in primary toll carrier, the end user will be credited the charge assessed for the disputed change in carrier, and will be switched back to the previous IXC at no charge. If this service is made available by the Telephone Company, IXCs may subscribe to or cancel PIC Switchback Service on 30 days notice to the Telephone Company by submitting a written request. A letter of authorization from the IXC will not be requested or accepted at a later date in the event of dispute of the charges assessed under the PIC Switchback option.

This option in no way relieves an IXC of the F.C.C. requirements for verifying all PIC orders obtained by outbound telemarketing prior to submitting those orders, or instituting steps to obtain verification of orders submitted to the Telephone Company.

In addition, the end user has the option of initiating a complaint to the F.C.C. or the Pennsylvania Public Utility Commission's Bureau of Consumer Services concerning unauthorized changes in toll presubscription.
