Re. Docket # C-2013-2373678

I apologize for delay in response. I was out of town to see my ailing sister and could not reply to the mail.

I am surprised to receive the complaint by Inspector G. King that we were using 2004 Lincoln Town Car which was only a month into year 9. PUC does not allow cars older than 8 model years to be used for transportation unless a request for waiver is filed.

We had showed him that we had purchased another vehicle and plate was being transferred from 2004 Lincoln Towncar to newly acquired vehicle. Due to a defect in title, we had to send title back for company we bought the car from in New York. The title could not be transferred until February 7th 2013.

We informed the inspector that this car is not being used to transport passengers but used by the driver for commuting, while he could pick up another Company vehicle to transport passengers. The inspector requested the log from the driver who was using this car. We provided that log. Please note that all these jobs were done using another Company Vehicle. He inspected this car anyway and did not find any problems except a burned out tail light.

Under the circumstances we request you to kindly review your decision and abate the Penalty.
