Re: PA PUC Bureau of Investigation & Enforcement v. Raymond Justice  
Docket No. C-2013-2383411

My husband, Raymond Justice, was diagnosed with Stage 4 lung cancer metastasized to the brain on May 1, 2013. His prognosis was very bad and he immediately proceeded to shut down his trucking company. After selling his trucks and trailers he cancelled his insurance and completed shutting down his business. After two brain surgeries to remove the tumors his condition became more critical and he passed away on September 13, 2013. A copy of his death certificate is attached.

Please let me know if you need any additional information to answer this complaint.

Sincerely,

  
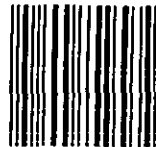

Sherry Justice
