Dear Mr. Eastburn:

Under date of November 30, 1983, the Secretary's office transmitted to you the Commission's compliance order of November 22, 1983, evidencing approval of the above carrier's application at A. 194919, which is in effect a transfer of the rights formerly held by James D. Morrissey at A. 47868. The letter transmitting the order directs attention to the requirement for the filing of a tariff.

In accordance with the provisions of PA Code, Title 52, Section 23.13(c) adoption supplements should be filed with us whereby the tariff of the former operator will become the tariff of the latter. However in this instance the tariff is obsolete and does not reflect reasonable rates. In view of these circumstances a new tariff may be issued on one days notice under authority of the Pennsylvania Public Utility Commission Special Permission 28116 to establish new reasonable rates, rules and regulations. Symbols are not required in this instance. The tariff should be designated Freight - PA PUC No. 1.

The matter should be given prompt attention as a certificate of public convenience will not be issued until full compliance with the Tariff Regulations has been met and if not completed within the time set approval of the application is subject to rescision.

Very truly yours,
Barry L. Ernst, Director
Bureau of Non-Rail Transportation
