RE: DOCKT NO. C-2013-2388422

To Whom It May Concern;

In answer to the complaint by the Pennsylvania Public Utility Commission, Factory Direct Homes, Inc. has ceased all operations and is no longer an active business. In defense of the existing complaint, Docket No. C-2013-2388422, it was Factory Direct Homes, Inc. understanding when filing MCS-150 with the Pennsylvania PUC on May 24, 2013, that all of our obligations regarding cancellation of our UCR Registration and Pennsylvania PUC license had been satisfied. Our DOT# 470639 has been resigned and is inactive, along with our apportioned registration. Believing that we had canceled our PUC License, in the process of closing our operation of the business we canceled our Liability Insurance and Cargo Insurance. We apologize for the misunderstanding and request dismissal of the complaint.

Please note that we are no longer an active business, the office is closed and our response was delayed due to circumstances. I personally contacted the Pennsylvania PUC and spoke to Wayne Scott, who advised me to contact Kasha Shreffler. After verifying that indeed our DOT License was inactive, Kasha Shreffler instructed me on how to proceed with this matter. Although I am a corporate office for Factory Direct Homes, Inc., I live in another state and am employed else where since the closing of Factory Direct Homes. Again, please accept my apologies.

Sincerely,

Tammy Miller
