Dear Secretary Chiavetta,

The only issue that is being brought before
the PUC Commission on Donald Januszewski
Exception is on PUC had Judge Solomon
1970's Ruling. This rebuttal by PostSchell
has drifted over into Senator Bob Casey's
concerns stamped not for PUC rulings.
Because of wrong dates on page 4, Dec 28, 2013
This should be Dec 28, 2013. They can
re submit, or PUC disregard these rebutals.
Let's not drag this out. PPH has to
answer three important concerns but this
will not be brought to PUC. Once this
group action ED is closed and not open
to public disclosure you will insight on
how bad the concerns are!

Respectfully,

Submitted

Pa. Public Utility Commission.

Insight on two battles in the 1970's. One with Bell and one with PPL on the 60 thousand volt line. Never signed with PPL, the route no good (Flooding) They went for F.D., but never happened. The Bell battle serious, but Judge Solomon ruled. At the end Judge Solomon asked what would like done. Money? Don, no way, give to charity. Removal of all poles and wires, Don yes! Return right ways to Don, yes. No future crossing across the farm. Don yes. This is what Judge Solomon and Don Januszewski agreeded to. (May be on recorded phone call) I gave a ten year grace period for RE Routes. It completed by happened 1989-90 and all original Right ways sent to Don. In the 1970's ruling a fine of seven hundred thousand was issued to charity by Bell. Press in a panic, how makers in up road #. Don and Elderly parents SAFE. On May 2 2013 Don arrived at Thomhurst Fire Co at 9:30 AM. They said be serly. long wait, as Don starts at 6 AM + battle chokes. Only had one large Gatoraide battle used sparingly and PPL + PUC would arrive

insight PRC would arrive at 12.45 appx.
You would be approached by reporters
and public and fire personnel for
set up. Don had one reporter with pen
and tablet, lots of questions, and why is
your file so large? I thought I could
approach Judge Salape in private to give
you our file. Instead Diane Dushman
got everything from Judge Solomon to Floods
I was past my time on a Hooy Nose Bleed.
That can happen under stress, but no one
reason, cattle check and a 2pm to 4pm
no one stop (Gunfire Fun from Patterson
group, at our fence line pasture.) Not
for PRC Files #, I would stay in touch
with Diane, so she would get insight
and Susan Henery's records. She said
she would brief Secretary Chivetta? In
mean time Don no stop dealings with Troop R.
The Army Corp of Eng. along with US/PA NRCS
on flooding of stream one. Note this route
may not be approved by ACE. And all no
stop PPH studies in the danger zone! All
safe by luck. In two years, not much
sleep for Don. Sorry for the hassle.

Thank you for your time and
warmest wishes for Thanksgiving!
