PUBLIC NOTICE

TRANSMISSION LINE CONSTRUCTION

PPL Electric Utilities Corp. (PPL) plans to increase the height of two existing 230 kV transmission lines to provide room for two new 230 kV transmission lines to pass underneath. The new 230 kV lines are required to power new pollution control equipment being installed at PPL Montour's coal-fired power plant. Increasing the height of the existing lines requires replacing one 115 foot tall single-shaft steel pole with a 180 foot tall single-shaft steel pole. The project is located on PPL Montour's property in Derry Township, Montour County.

If you would like more information about this project, please contact PPL Regional Community Relations Director, Don Stringfellow at (570) 368-5235.

On March 15, 2006 PPL filed an application with the Pennsylvania Public Utility Commission (PUC), which must approve the project before work can begin. A copy of this application is available for public inspection on weekdays during business hours at:

Derry Township Municipal Building
909 Shed Road
Danville, PA 17821

If you wish to participate in the PUC application process, you should contact within 15 days:

James J. McNulty, Esquire
Prothonotary
Pennsylvania Public Utility Commission
PO Box 3265
Harrisburg, PA 17105-3265

As a reference aid, be sure to include the project's "docket number," which is A-110500 F0375.
