RE: Letter of Notification of PPL Electric Utilities Corporation filed Pursuant to 52 Pa. Code Chapter 57 Subchapter G with Respect to The Reconstruction of the South Akron-Berks 230 kV Transmission Line in the Townships of West Earl, Earl, Ephrata, East Cocalico and Brecknock, all in Lancaster County
Docket No. A-110500 FO 376

Dear Michelle,

The enclosed Letter of Notification of PPL Electric Utilities Corporation was served on The Greens at Hawk Valley, Inc at 875 Berkshire Blvd, Wyomissing, PA 19610, by Certified Mail on May 4, 2006. Unfortunately this information was received and signed for inappropriately.

Due to the dissolution of The Greens at Hawk Valley, Inc., I am forwarding this Letter of Notification along with the aerial photograph to you, as Management Agent for the Greens of Hawk Valley Homeowners Association.

Very Truly Yours,

(89)

David A. Binder
Vice President

RE: Letter of Notification of PPL Electric Utilities Corporation filed Pursuant to 52 Pa. Code Chapter 57 Subchapter G with Respect to the Reconstruction of the South Akron-Berks 230 kV Transmission Line in the Townships of West Earl, Earl, Ephrata, East Cocalico and Brecknock, all in Lancaster County
Docket No. A-110500 F0376

Dear Secretary McNulty:

On May 3, 2006, the PPL Electric Utilities Corporation filed a Letter of Notification of PPL Electric Utilities Corporation was filed in the above-referenced proceeding. However, as the result of an oversight, the text of the Letter of Notification was omitted from that filing. Therefore, enclosed for filing, are an original and seven (7) copies of the text of the Letter of Notification of PPL Electric Utilities Corporation. Copies of the text of the Letter of Notification are also being provided to the affected property owners and governmental organizations identified in the enclosed certificates of service.

Respectfully submitted,

John H. Isom

Re: Letter of Notification of PPL Electric :
Utilities Corporation Filed Pursuant To 52 :
Pa. Code Chapter 57 Subchapter G With :
Respect To the Reconstruction of the South :
Akron-Berks 230 kV Transmission Line in :
the Townships of West Earl, Earl, Ephrata, :
East Cocalico and Brecknock, all in :
Lancaster County :

Docket No. A- 110500
F 0376

LETTER OF NOTIFICATION

TO THE PENNSYLVANIA PUBLIC UTILITY COMMISSION:

1. This Letter of Notification is filed by PPL Electric Utilities Corporation ("PPL Electric"), pursuant to 52 Pa. Code §57.72(d)(1), to request the Pennsylvania Public Utility Commission's ("Commission") approval for the reconstruction of a 12.4 mile section of the single circuit South Akron-Berks 230 kV Transmission Line for double circuit 230 kV operation. The purpose of this project is to provide sufficient transmission capability to meet expected load requirements in a manner that complies with the requirements of the North American Electric Reliability Council, ReliabilityFirst and PPL Electric Reliability Criteria. The immediate concern that necessitates the reinforcement of the existing transmission line is concern about the capability of the present 230 kV transmission system to provide reliable power supply to PPL Electric's South Akron 230-138-69 kV and Berks 230-69 kV Substations within acceptable voltage levels and within the power line conductor's thermal capability during periods of peak demand. Specifically, nine separate thermal overloads and excessive voltage drop violations have been documented for several single and double contingency outages. If any of these contingencies were to occur prior to the completion of the Transmission Line reconstruction project, service to approximately 45,000 customers in the area could be jeopardized.

2. Accompanying this Letter of Notification is a separately bound volume containing Exhibits A-C and Appendices A-D, which provide additional information about the project. This Letter of Notification and the accompanying Exhibits and Appendices, which are incorporated herein by reference, contain all of the information required by 52 Pa. Code § 57.72(d)(4).

3. The name and address of the Applicant are:

PPL Electric Utilities Corporation
Two North Ninth Street
Allentown, Pennsylvania 18101

4. PPL Electric is a Pennsylvania corporation, which provides electric distribution and provider of last resort electric supply services, subject to the Commission's regulatory jurisdiction, to approximately 1.3 million customers in all or portions of twenty-nine counties in eastern and central Pennsylvania.

5. The names, addresses and telephone numbers of PPL Electric's attorneys are:

David B. MacGregor
Post & Schell, P.C.
Four Penn Center
1600 John F. Kennedy Boulevard
Philadelphia, PA 19103-2808
Voice: 215.587.1197
Fax: 215.587.1444
E-mail: dmacgregor@postschell.com

17 North Second Street
Harrisburg, PA 17101-1601
Voice: 717.612.6032
Fax: 717.731.1985
E-mail: jisom@postschell.com

Paul E. Russell
PPL Electric Utilities Corporation
Two North Ninth Street

Allentown, Pennsylvania 18101
Voice: 610.774.4254
Fax: 610.774.6726
E-mail: perussell@pplweb.com

6. PPL Electric's attorneys are authorized to receive all notices and communications regarding this Letter of Notification.

7. PPL Electric is proceeding by means of a Letter of Notification, instead of a full Application, pursuant to the Commission's regulations at 52 Pa. Code § 52.72(d). This transmission line siting and construction proceeding qualifies for use of a Letter of Notification because, with only one small exception, it is within an existing transmission line right-of-way presently owned by PPL Electric and because the project which involves replacing 64 of the four-legged lattice towers that average 98 feet in height supporting a single 230 kV circuit with approximately 68 single-shaft steel poles which average 143 feet in height. The project will not substantially alter the right-of-way, and actually will reduce the impact of the transmission facilities on the right-of-way because each present lattice tower has four foundations and is more visually intrusive than the single-shaft steel poles, which each have only a single foundation.

8. The exception to the statement that the entire project will be constructed within existing rights-of-way of PPL Electric relates to a slight rerouting of the Transmission Line to accommodate an active bald eagle nest that was built on one of the existing lattice towers. This lattice tower will be bypassed and the eagles will not be disturbed. Additional rights-of-way and easements for the rerouting of the Transmission Line have been obtained.

9. The project that is the subject of this Letter of Notification is situated on property owned by ninety eight different land owners. Each of the land owners is being notified of the project.

10. It is estimated that it will cost approximately \$29 million to design and reconstruct the 12.4 miles of 230 kV Transmission Line. The cost of the reconstruction of the PPL Electric's Transmission Line will be borne by PPL Electric.

11. The reconstruction of the 12.4 miles of the South Akron-Berks Transmission Line is scheduled to begin in August, 2006, with an in service date of May, 2008.

12. The Necessity Statement for the project is provided as Exhibit A to this Letter of Notification.

13. The project will be designed, constructed, operated and maintained in a manner that meets or surpasses National Electrical Safety Code ("NESC") standards and all applicable legal requirements. The proposed project will not create an unreasonable risk of danger to the public health or safety. Descriptions of NESC standards and PPL Electric's design criteria and safety practices are set forth in Appendix A to the accompanying exhibits.

14. The Engineering Description of the project is provided in Exhibit "B" to this Letter of Notification.

15. No nearby railroads, communication towers, pipelines or other utilities will be affected by the proposed project. The nearest aviation facility is the Lancaster Airport which is located 4.3 miles from the project's location and will not be affected by the project.

16. The project has been reviewed by the Pennsylvania Historical and Museum Commission ("PHMC"). It noted the presence of several recorded archaeological sites along the transmission line corridor. PPL Electric has retained the services of an expert to locate and investigate these sites as well as to identify any new, unrecorded sites. Any PHMC concerns will be addressed prior to the start of construction.

17. Based upon a review of registries of historic landmarks, districts and properties, there are numerous, locally important historic structures along the 12.4 mile corridor. Visual intrusion of the reconstructed Transmission Line, however, will be less than that of the existing Transmission Line because lattice towers will be replaced by single-shaft steel poles.

18. The project will not affect any unique geological, scenic or natural areas. No National Natural Landmarks, parks, or recreational facilities are located near the project area. No tree clearing is required because the Transmission Line will be constructed along the route of an existing Transmission Line.

19. The Transmission Line corridor crosses the Conestoga River four times; crosses Muddy Creek twice and crosses several named and unnamed tributaries and wetlands. All water bodies were delineated, surveyed and added to the construction plans. All are easily spanned and, therefore, no impacts are anticipated.

20. In conducting the work necessary for this project, PPL Electric will employ, as appropriate, the mitigating measures set forth in its "Specification for Soil Erosion and Sedimentation Control for Electrical Systems Projects." Additionally, permits, if required, will be obtained from the Pennsylvania Department of Environmental Protection and the United States Army Corps of Engineers prior to the start of construction.

21. PPL Electric has coordinated with state and federal agencies and determined that, in addition to the concerns about a bald eagle nest, which was explained above, there exists a potential that wetlands may be bog turtle habitats. If any PPL Electric construction falls within 300 feet of any potential bog turtle habitat or if any direct or indirect impact at distances greater than 300 feet are anticipated, PPL Electric will secure all required permissions prior to the start of construction.

22. The Environmental Assessment for the project is provided as Exhibit "C" to this Letter of Notification.

23. Appendix B to this Letter of Notification explains PPL Electric's standards for Magnetic Field Management.

24. Appendix C to this Letter of Notification is a list of property owners within PPL Electric's transmission line right-of-way. All necessary rights-of-way have been acquired.

25. The proposed project was reviewed with all of the affected townships and Lancaster County. None of these governmental units objects to the project. A list of involved governmental agencies, municipalities and other public entities is presented in Appendix D.

26. A copy of this Letter of Notification is being served in accordance with 52 Pa. Code §57.72(d)(3).

27. As soon as practicable after the filing of this Letter of Notification, PPL Electric will publish notice of the filing in newspapers of general circulation in the area of the proposed project. Such notice will contain: (a) the date this Letter of Notification was filed with the Commission; (b) a brief description of the project and its location; (c) locations where the complete Letter of Notification may be reviewed by the public; and (d) an instruction that the interested parties should contact, within 15 days, James J. McNulty, Secretary, at the Commission's Harrisburg address.

28. This Letter of Notification is filed on the date set forth below. As provided in 52 Pa. Code § 57.72(d)(5), the Commission will review and, by order, approve or disapprove this Letter of Notification. If the Commission approves this Letter of Notification, the proposed project will be constructed as proposed herein without the formal application process set forth at 52 Pa. Code §§ 57.71 *et seq.* If the Commission does not approve this Letter of Notification, the

Commission's Order shall direct PPL Electric to file for approval to construct the proposed project pursuant to the Commission's formal certification regulations.

WHEREFORE, PPL Electric Utilities Corporation respectfully requests that the Commission approve the reconstruction of a 12.4 mile section of the South Akron-Berks 230 kV Transmission Line so that PPL Electric can resolve the nine identified contingency violations and thereby continue to provide adequate, safe and reliable service to the public.

**PUBLIC NOTICE
TRANSMISSION LINE CONSTRUCTION**

PPL Electric Utilities Corp. (PPL) plans to rebuild 12.4 miles of single circuit 230,000 volt transmission line for double circuit 230,000 volt operation. The new transmission line will be rebuilt within existing PPL right-of-way and will traverse portions of West Earl, Earl, Ephrata, East Cocalico and Brecknock Townships in Lancaster County.

This transmission line is being rebuilt to serve the growing need for electricity in this part of Lancaster County. The new line will provide a fourth circuit into PPL's South Akron Substation and ensure compliance with the North American Electric Reliability Council, ReliabilityFirst, and PPL Reliability Criteria.

If you would like more information about this project, please contact PPL Regional Community Relations Director, John M. Levitski, at (717) 560-2533.

On May 3, 2006, PPL filed an application with the Pennsylvania Public Utility Commission (PUC), which must approve the project before work can begin. A copy of this application is available for public inspection on weekdays during business hours at the following locations:

Brecknock Township Municipal Building
1026 Dry Tavern Road
Denver, Pennsylvania 17517

Or,

West Earl Township Municipal Building
157 West Metzler Road
Brownstown, PA 17508

If you wish to participate in the PUC application process, you should contact within 15 days:

James J. McNulty, Esquire, Secretary
Pennsylvania Public Utility Commission
PO Box 3265
Harrisburg, PA 17105-3265

As a reference aid, be sure to include the project's "docket number," which is A-110500 R0376.
