

11 December 2013

To PUC Commission,

I, Emory Blackshir, am writing this petition for rescission based on the decision that was made by PUC. I tried to contact PECO to set a payment plan that was affordable and they turned me down telling me that I had to pay an unreasonable amount of money or they would terminate my services. I involved the PUC in order to seek resolution on the amount of my bill and once the amount was determined to make a payment that I could afford to pay along with my regularly scheduled monthly bill. When I contacted PECO after dealing with the PUC I was extremely disrespected, reprimanded, and unfairly treated. The conversation was rude and very discouraging and I was told "I should have thought about this before I involved the PUC." After talking with that supervisor I asked to speak to HER supervisor and while waiting on hold that manager answered the phone and said that she was aware of the situation and that I should just pay my bill and hung up the phone. Ten minutes later the first manager that I spoke with called back and told me "I will give you a little more time, but we are going to shut you off." I thanked her and she hung up the phone. I'm asking in any way if the PUC can help rectify this situation. I can be reached at either number, please help in this matter.

Thank you,

Emory Blackshir Sr.
