Re: PUC Gas Application A-2013-2380914

Dear Mr. Moore,

It is noted that SOE also has a pending Electric Generation Supplier (EGS) license. Thus, when responding to the Secretary's office SOE should indicate which application the submitted information pertains to, since both applications are handled separately. I will send another email with items needed for the EGS application. It is essential for applicants to make selections from the available checkboxes on the application, since the application becomes the framework from which the Order is written and License is issued. Unfortunately many of SOE's checkboxes were not selected. Per SOE's application to be licensed as a Natural Gas Supplier we need the following items to complete the application:

1. Reference application, SOE has submitted application with checkboxes not selected/not legible, the following pages with checkboxes must be submitted and applicable checkboxes selected:
 - a) Pages 2, 3 under 5. **Business Entity and Department of State Filing-** please submit pages with option(s) under the heading "Applicant is a" or "Applicant is a" selected.
