Electronic Data Interchange and Internet Requirements

Prior to doing business in an EDC service territory, the EGS must meet the Electronic Data Interchange (EDI) certification requirements of the EDC. Certification is a testing process using the Commission approved Internet protocol. To initiate this process, the EGS is encouraged to contact the EDC as early as possible after filing an application for a license with the Commission, since certification may require as many as four months to complete and customer service contract dates may not commence prior to certification. EDC requirements of new suppliers may be found on the respective EDC home web page. Pennsylvania's industry stakeholder group the Electronic Data Exchange Working Group (EDEWG) develops and maintains the EDI transactions and related business practices, which are found on the Pa. PUC website at http://www.puc.state.pa.us/electric/electric_electronic_data_exchange.aspx. The EDEWG meets telephonically the first Thursday of each month at 2:00pm ET to discuss EDI change control requests and other issues.

To keep current with Pennsylvania EDI practices and policies, a newly licensed EGS is strongly encouraged to participate in the EDEWG by contacting the following:
