January 28, 2014

PA.P.U.C.
SECRETARY'S BUREAU

Secretary of the Commission
Pa. Public Utility Commission
P.O. Box 3265
Harrisburg, Pa. 17105

To Whom It May Concern:

I am writing in concern to PA Bulletin, Doc. No. 14-219 and specifically the application by 1-800-PACK-RAT listed below:

A-2013-2398393. 1-800-PACK-RAT, LLC (6400 Goldsboro Road, Suite 300, Bethesda, MD 20817) for the right to begin to transport, as a common carrier, by motor vehicle, household goods in use, between points in Pennsylvania.

My concern with this application is that it appears to be an ALL POINTS application. To my knowledge no existing company has been granted this type of all-inclusive authority. I understand that the Commission is leaning toward a less restrictive application process, but until such time as this ruling is adopted granting an ALL POINTS authority to a new Carrier will give them a market advantage over all of the existing carriers whom have serviced the citizens of the Commonwealth of Pennsylvania for generations.

Should all existing carriers be granted ALL POINTS authority than I would have no issue with this application being considered. However, until such time as the existing carriers are granted this level of authority, I believe that granting a new company a privileged position in the industry would have a detrimental effect on current providers and the Pennsylvania jobs they provide.

Again, I do not have an issue with 1-800-PACK-RAT per se, but simply believe that granting an ALL POINTS authority to any new carrier would provide an unfair market advantage over the Pennsylvania businesses that have been faithfully serving the community for generations and provide much needed Pennsylvania jobs.

Sincerely,

Steve Starck
President
