RE:C-2013-2391487

First off let me tell you that YOU and the lawyer AND YOU have ALL violated my civil rights in as much I was NOT afforded to be a part of the proceedings nor was I allowed to 'face my accuser' as is applicable by law!

Your hackneyed 'repeated and persistent failure to pay monthly bills' must be a favorite phrase of yours. I have stated to EVERYONE involved for YEARS that since 2006 when I had a MASSIVE stroke and was unconscious for 90+ days near death in a hospital bed that I became totally disabled. Disabled for a Federal Employee is NOT the gravy train that other citizens enjoy. The amount of funds I receive NOW are 40% of what I received when working. YOU TRY and make ends meet getting 40% of what you get now; let's see who is living under the bridge first! Your ARROGANCE INFURIATES me especially when the PUC is a 'guardian' for the CONSUMER not the Utility. YOUR responses however shed light on a distinct possibility that the Utility comes first.

You also side with the Utilities option to send threatening robotic letters to those who are in trouble financially. To your SPECIOUS reply I say just because the Utility CAN do such a thing under lobbyist's engineered law does NOT MEAN THEY SHOULD. I COULD take a bag of cats or dogs and throw them in the river, BUT I DO NOT. I CAN take the wings off of flies but DO NOT. I can fry ants in the summer sun with a magnifying glass...Is that simple enough an analogy?

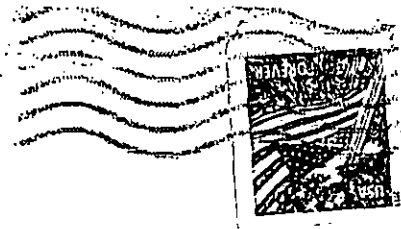

!!!!!!!
