Re: Security Requirement Bond for American Power & Gas  
of Pennsylvania, LLC

Dear Mr. Bridgeforth:

Philadelphia Gas Works (PGW) is aware that American Power & Gas of Pennsylvania, LLC has filed an application with the Pennsylvania Public Utility Commission to supply natural gas services to the public in Pennsylvania and specifically within the services territory of Philadelphia Gas Works.

As you know, in making such an application, American Power & Gas of Pennsylvania, LLC must furnish acceptable security to each utility where American Power & Gas of Pennsylvania, LLC will do business. As such, under its tariff, Philadelphia Gas Works could require American Power & Gas of Pennsylvania, LLC to provide a bond or other financial security instrument in an amount that Philadelphia Gas Works determines to be appropriate.

However, you have indicated, and it is Philadelphia Gas Works' understanding, that American Power & Gas of Pennsylvania, LLC intends only to provide natural gas aggregating, brokering and consulting services at this time. You have stated that, in performing these services, American Power & Gas of Pennsylvania, LLC will never take title to any delivered natural gas.

Based upon your representations, Philadelphia Gas Works has determined that, at this time, American Power & Gas of Pennsylvania, LLC does not need to post a bond or other form of security to operate in its service territory. If the services provided by American Power & Gas of Pennsylvania, LLC should change, Philadelphia Gas Works reserves the right to require security from American Power & Gas of Pennsylvania, LLC as it deems appropriate.

If you have any questions concerning the foregoing, please contact me at (215) 684-6405.

Sincerely,  
A handwritten signature in black ink, appearing to read "Raymond M. Snyder", is written over the word "Sincerely,".

Raymond M. Snyder  
Vice President, Gas Management
